

**PEDESTRIAN HEART GAS MAIN REVIEW GROUP**

**12TH APRIL, 2006**

PRESENT - Councillor Haszeldine (in the Chair); Councillors Francis, Johnson, Lewis, Maddison, Richmond and Ruck

APOLOGIES – Councillors Hutchinson, F.S. Robson and S.Robson, Swainston, Wilson, Walker

ALSO IN ATTENDANCE – Mr Smith, member of the public

The Review Group received a presentation from the Director of Development and Environment on the background to the Pedestrian Heart Gas Main issue.

Discussion ensued on the complexity of the services which were mapped underground, the installation, over the last 200 years of the majority of the utility services; the responsibility of service providers to record service locations and accuracy; and various pieces of work which were being done nationally into underground utility network mapping.

A site visit to the area concerned also took place.

IT WAS AGREED – That Members consider who it would wish to speak to as part of its investigations and why and forward those details to the Officers.
