  - New statutory duties;
  - Promoting and delivering services in different ways;
  - Maintaining core service delivery in support of the Council's wider objectives;
  - Corporate reviews such as the Administrative Services Review have been progressed and will impact upon the way the Division operates in the future.
- ❖ Maintaining and enhancing the vitality and viability of the town centre was a major objective for the Council and for the department
- ❖ Public Protection had a major contribution to make through the Car Park Management and Markets services, and in supporting programmes to tackle anti-social behaviour
- ❖ The weekly general market and the speciality open markets had to be relocated and integrated in to the new pedestrian town centre. The Division prepared for and led on the enforcement of the smoke free premises legislation. - ❖ The Better Regulation agenda was addressed, with alternative forms of enforcement and regulation being developed and established
