The amount of time to carry out the building functions varies, dependent on the different use categories of building.

The amount of time to check and inspect a building used for industrial and storage use is less than that for other use, same size buildings and the charge for an assembly use building is higher due to the additional time in respect of this type of work. The use of a building is different under the provisions of the Building Regulations 2000 (as amended). For further definitions see Building Regulations Approved Documents to Part B.

Note: A basement is considered to be a storey and there is an additional charge of £170 if this work is in relation to a basement.

### **Additional Charge for the Change of Use of a Building**

The charge is £75 where there are no associated substantive building works required to change the use of the building. This charge can be discounted from any application or notice received when substantive works are required.

This additional charge does not apply in relation to a building used for residential purposes that is altered to create more or fewer dwellings.
