

Car Parking and Contract Parking

Disability Equalities Impact Assessment Record Sheet

Policy Title: 1. Car Parking: remove the 3 hours for 2 offer; introduce Sunday charging; convert East Street from staffed car park to pay-and-display 2. Contract Parking; Introducing contract parking for town centre businesses at within Beaumont Street West, Winston Street and Park Place West car parks, subject to businesses having adopted a travel plan.			
Policy Owner: John Anderson			Date: 1 st February 2011
Type of Assessment	Type	Type	Type 3 ✓
Is this a policy or an action? Action			
What are the positive or negative effects that the action will have on disabled people? The two proposals are included in this single DEIA because they are both concerned with town centre car parking and neither gives rise to any positive or negative impacts on disabled people. Positive Impacts There will be no positive effects on disabled people Negative Impacts There will be no disproportionately negative effects on disabled people, subject to disabled parking spaces being unaffected by the contract parking proposal. Changes to parking charges will affect disabled people, but not disproportionately to the population as a whole.			
What evidence supports this? The action does not involve any change to policy, service delivery/funding or organisational structures from which positive or negative effects could be generated.			
Who was involved? Peter Roberts, Policy Advisor and Equalities Co-ordinator in Chief Executive's Department Gordon Pybus, Chair, Disability Equality Impact Assessment Sub-Group			
What action will you take as a result of the impact assessment? None required			
How and when will this action be monitored? Not applicable.			

Peter Roberts, extension 2713; 1st February 2011
