STATUTORY LISTED BUILDINGS

The Bandstand Grade II Ref 11/386

Late C19 iron framed octagonal bandstand has shallow roof with central cast iron basket finial; and patterned antefixae on each face. Chevron moulding eaves cornice. Slender cast iron columns have patterned radial and lateral spandrels forming arches around. Patterned cast iron handrail below.

The Fountains Grade II Ref 11/420

Mid C19. Tall terracotta structure. Small quarterfoil upper basin, with leafy finial, rests on 4 short columns of polished granite. These rise from a larger octafoil basin resting on a short, thick granite column upon a round terracotta base. All parts are richly moulded. Fountain rests on later cement plinth where a plaque records its origin at Pierremont House and its presentation to the Borough in 1925. The whole stands in a pool with cable moulded, coved terracotta rim and truncated octagonal piers at intervals.
