

OUTPUTS:
Improved outcomes for vulnerable groups

This means developing ContactPoint and the CAF and training staff teams

This means we want to agree a framework for monitoring and evaluating services

This means implementing workforce reform around the core competencies

This means quality assuring and CRB checking voluntary and community groups working with young people

This means getting better at housing for families with children

This means moving resources to earlier support for parents at all levels and across the whole Borough

We are going to put children at the heart of the community and we are going to be driven in our decision making by outcomes for children

We are going to support parents to bring up their children.

We are going to develop the infrastructure to make championing children a reality

We are going to boost support for children from the communities in which they live.

A Champion for Every Child

OUTPUTS:
Improved outcomes for vulnerable groups

This means boosting voluntary support for children in the community, e.g. grandparents

This means the changing the ways communities interpret childhood behaviour

This means helping advocate for children in the community

This means improving children's access to services and other opportunities, e.g. through provision of personal advisors

This means decommissioning activity at the rate at which we commission additional preventative service designs

This means designing implementing and evaluating services for children with acute needs – to include LAC, CAMHS and YOT populations

This means designing implementing and evaluating services for families including better use of children's centres and family support teams

OUTPUTS:
Improved outcomes for vulnerable groups

OUTPUTS:
Improved outcomes for vulnerable groups
