

**OUTPUTS:  
Reduction in  
NEET Figures**

This means greater attention to the curriculum and social needs of all pupils, e.g. better literacy, and attention to the gifted and talented

We are going to make sure parents know about the choices post 14

This means attention to a vocational curriculum and a learner entitlement

This means we need to ensure access to impartial information, advice and guidance

This means improving children's access to services and other opportunities, e.g. through provision of personal advisors

This means decommissioning activity at the rate at which we commission additional preventative public health & service designs

**OUTPUTS:  
Reduction in  
NEET Figures**

This means designing implementing and evaluating services for children with acute needs – to include LAC, CAMHS and YOT populations

**A job or place for every school leaver**

This means we have to better connect schools through local communities

We are going to develop the capacity of schools, through the 14-19 Trust to support a broad spectrum of young people's development and so make schools focus of their communities

We are going to work with other services so we have a range of services proven to meet the needs of young people whose development is impaired

This means designing, implementing and evaluating NEET preventative strategy including making use of E2E, personal development opportunities and targeted youth support

**OUTPUTS:  
Reduction in  
NEET Figures**

This means ensuring we have an effective drug strategy

We are going to boost the employment opportunities for young people from the communities in which they live.

We are going to support parents to develop aspirations for their children.

We are going to put children at the heart of the community and make an extensive Youth Offer

This means tackling anti-social behaviour and changing the ways in which adults perceive young people

This means encouraging young people to volunteer to give something to their communities

This means ensuring that young people have a home to live in and sufficient finances

This means developing sexual health initiatives for young people

**OUTPUTS:  
Reduction in  
NEET Figures**

**Appendix 3: A job or place for every school leaver**
