- D. Information to support Chapter 4
- E. Bibliography

## APPENDIX A

### Evidence of New Service Priorities

<b>St Georges Hall</b>	<b>Priority Ranking 1</b>
<b>Reasons for Priority</b>	Accommodation for young homeless is a priority in Homeless strategy
<b>Client Group</b>	Young homeless 16 to 25 (single and couples without children)
<b>No. of Units</b>	11 (including one wheelchair accessible unit)
<b>Financial Requirements</b>	£95,000 pa Supporting People funding required
<b>Service Detail</b>	24-hour accommodation based service for young vulnerable people. To accommodate both single and couples with no children. Priority to be given to care leavers and first time homeless.
<b>Development Status</b>	Capital allocation granted by Housing Corporation. Planning consent approved.
<b>Target for Completion</b>	September 2005

<b>Substance misuse floating support</b>	<b>Priority Ranking 2</b>
<b>Reasons for Priority</b>	Priority carried over from Shadow Strategy due to loss of capital funding
<b>Client Group</b>	Those who have misused drugs and/or alcohol
<b>No. of Units</b>	10 maximum
<b>Financial Requirements</b>	Up to £40,000 pa Supporting People funding
<b>Service Detail</b>	To be provided to tenants in Council, RSL and private accommodation
<b>Development Status</b>	Expressions of interest invited. To be evaluated January 2005
<b>Target for Completion</b>	April 2005

<b>Extra care for older people with dementia</b>	<b>Priority Ranking 3</b>
<b>Reasons for Priority</b>	Link to National Service Framework for people with mental health problems and also Darlington Borough Council's Best Value Review of Mental Health Services.
<b>Client Group</b>	Older people with dementia
<b>No. of Units</b>	14 units
<b>Financial Requirements</b>	£16,000 pa Supporting People funding required. Grant from DoH of £3,348,600 in 2005/06. Contribution from Hanover Housing would be around £550K in 2005/06 and the Housing Authority contribution £302K in 2006/07
<b>Service Detail</b>	Provided in new build wing onto additional, remodelled sheltered housing scheme, which will also provide 4 intermediate care beds
<b>Development Status</b>	This service development is dependent upon the outcome of a bid for the Extra Care Housing Funding from the DoH.
<b>Target for Completion</b>	March 2006

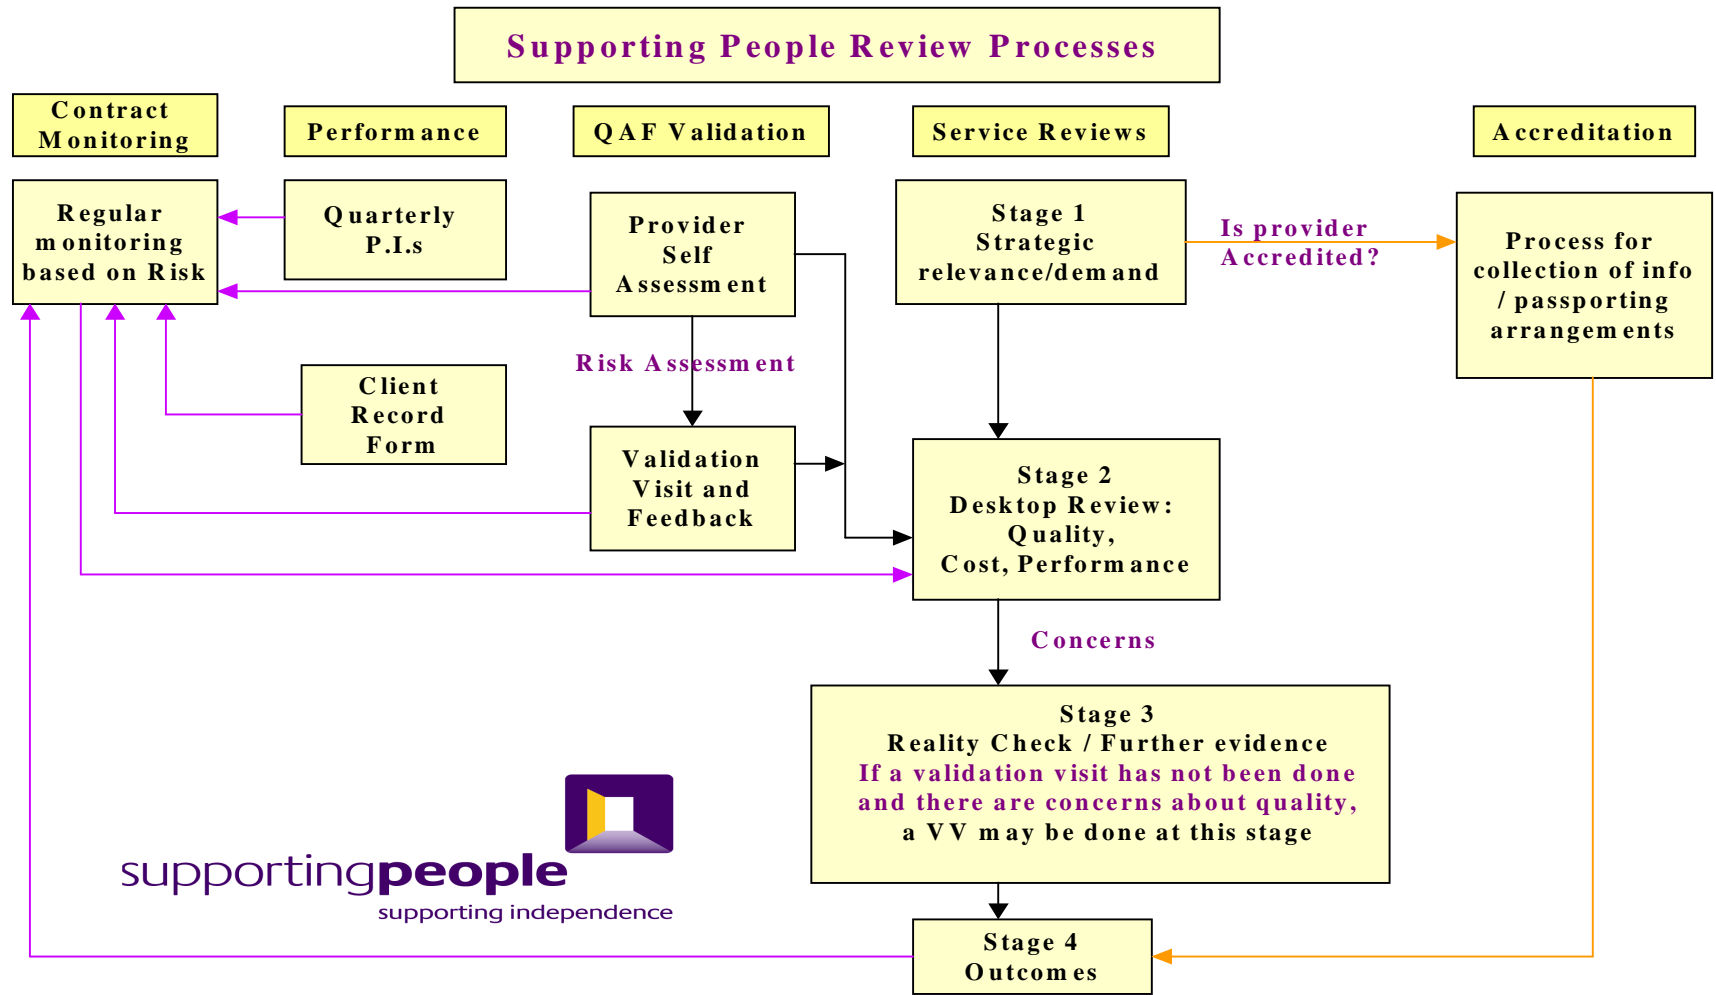

<b>Extra care remodelling</b>	<b>Priority Ranking 4</b>
<b>Reasons for Priority</b>	Link to National Service Framework for older people and the local Older Persons Strategy. This will become priority 3 should the capital bid for the above service be unsuccessful
<b>Client Group</b>	Older people with support needs
<b>No. of Units</b>	Up to 60 units
<b>Financial Requirements</b>	No extra Supporting People funding required. Remodelling to be funded from the Housing Business Plan
<b>Service Detail</b>	Extra care provision in partnership with Social Service within a sheltered housing service
<b>Development Status</b>	The Housing Division has a programme to remodel 4 sheltered housing schemes. This development represents the remaining 2 services, where work is to start on-site
<b>Target for Completion</b>	March 2006

<b>Substance misuse accommodation based service</b>	<b>Priority Ranking 5</b>
<b>Reasons for Priority</b>	Priority carried over from Shadow Strategy due to loss of capital funding
<b>Client Group</b>	Those who have misused drugs and/or alcohol
<b>No. of Units</b>	8 units
<b>Financial Requirements</b>	£78,000 pa Supporting People funding – additional funding of around £159K required from DAAT
<b>Service Detail</b>	Accommodation based service provided in 4 shared houses within the borough of Darlington. Properties provided by Local Authority/RSL
<b>Development Status</b>	Awaiting funding allocation decision from DAAT
<b>Target for Completion</b>	January 2006

## APPENDIX B

### Supporting People Strategic Partners

<u>Stakeholder</u>	<u>Approving Partners</u>
Social Services	Integrated Learning Disability Team
	Mental Health Team
	Youth Offending Team
	Care at Home Services
	Leaving Care Partnership
Health	Darlington Primary Care Trust
	Durham and Darlington Acute Services Trust
Housing	Housing Division
Probation	Durham Probation Service
Providers	Registered Social landlords Voluntary Organisations
Service users and carers	Tenants and residents, their families and carers
	Darlington Residents Panel
Advocacy Services	Mental After Care Association
Other Stakeholders	The Housing Corporation
	Northern Housing Consortium Ltd

## APPENDIX D

### Information to Support Chapter 4 – Local Profile

#### a) Supply Table Profile

Client Group	Levels of Provision			Notes
	Lower	Higher	Actual	
Older People with Support Needs	645	1301	1326	<p>The figure for Darlington is above the top of the range. This reflects the demographics of the borough. However, within this general provision there is limited specific accommodation for frail older people (extra care) or accommodation specifically linked to early hospital discharge or prevention of admission to acute services (intermediate care). To address this gap a 42 bed extra care scheme in was opened in partnership with an RSL in March 2004, and the continued programme to remodel 4 of the Council's existing sheltered schemes to provide extra care, and the development of a new build 12 bed intermediate care scheme. The communal facilities and 14 flats at Dalkeith House, the Council's first extra care scheme were completed in April 2004, with a further Scheme at Oban Court to be completed by December 2004</p> <p>A bid for capital funding has been made to remodel a further sheltered scheme to provide additional units, delivering extra care for older people with mental health problems.</p> <p>The Council has also commenced a programme to upgrade all sheltered housing schemes with telecare technology, enabling them to provide additional support.</p>

Client Group	Levels of Provision			Notes
	Lower	Higher	Actual	
People with Mental Health Problems	36	152	24	The supply is less than the lower end of the range. The majority of these units are provided with low-level support. There is little provision with 24-hour cover, and this is an area where more provision is needed. The Supporting People team is currently working with the Mental Health Local Implementation Group to identify needs.
People with a Learning Disability	18	82	118	The provision is above the higher end of the range. However, the vast majority of the available accommodation is located within shared houses, and options need to be explored to provide self contained accommodation. Additionally there are people currently in 'out of area' long stay hospital accommodation, living with ageing carers or currently living in accommodation that does not meet their needs, who require supported accommodation.
People with a Physical or Sensory Disability	14	95	18	This provision is at the lower end of the range of provision. However, the Councils commitment in recent years to include wheelchair standard accommodation in all new general needs housing developments has resulted in reducing demand for adapted accommodation, as evidenced in the Housing Needs Survey 2003.
Single Homeless	1	73	97	The provision in the borough is above the higher range of the supply profile. However, statistical information from the Homeless Strategy indicates that there remains an under-provision for this client group. The numbers of homeless who are re-housed and subsequently leave the accommodation within 12 months further underlines the need for supported accommodation. A new hostel providing 11 short stay beds for homeless young single people and couples, is currently being developed, and will be opened in March 2005.
People with Alcohol	7	11	0	<b>There is currently no provision within the borough for this client group range in the profile. The Supporting People team have been working with the DAAT to develop a model of care which will provide a range of</b>

Client Group	Levels of Provision			Notes
	Lower	Higher	Actual	
Problems				<b>services from hostel to shared houses, through to floating support for this group</b>
People with Drug Problems	3	28	0	See above.
Offender or those at Risk of Offending	2	6	13	Provision for offenders is above the predicted range, suggesting that this group is over provided for in the borough. However, data from the Probation Service indicates that this level of provision is required.
Young People at Risk or Leaving Care	13	32	3	There is currently insufficient designated accommodation for this client group. The Supporting People Team is working with colleagues in Social Services to improve access for care leavers to more generic services.
Women at Risk of Domestic Violence	2	10	8	Provision of supported accommodation falls slightly below the higher range of the supply profile. An 8 bed Refuge opened in March 2003, to replace the existing building. Although the design can be used to accommodate more women in exceptional circumstances, data indicates that there is a high demand for this service. Local needs research indicates that a floating support service is required and will also relieve pressure on the Refuge.
People with HIV/AIDS	4	91	0	There is currently no specific supported accommodation for this client group. The data we have indicates that this client group gravitates to Newcastle where the specialist treatment centre is located. The needs of this group may therefore be best met through cross authority provision. Further work is being undertaken around the needs of this group.

Client Group	Levels of Provision			Notes
	Lower	Higher	Actual	
Homeless Families in need of support	1	15	6	There is currently no specific supported accommodation for homeless families; however the Tenancy Support Scheme caters for homeless families as a secondary client group. Work is also being undertaken with a RSL to develop a number of supported units for homeless families in need of support. However this is subject to revenue funding being available. A 6 unit, 24 hour supported scheme for teenage parents opened in March 2004
Refugees	0	2	0	There are no accommodation based Supporting People funded services for refugees in Darlington. Traditionally asylum seekers and refugees have not arrived in Darlington. However we are actively involved in the National Asylum Seekers Support Scheme and currently support asylum seekers in 20 units of Council accommodation. Further work is required in this area to identify future support needs.
Generic	0	2	15	There are 15 units of generic supported housing in the Borough that provide services to a range of different client groups.
<b>Totals</b>	<b>746</b>	<b>1900</b>	<b>1634</b>	

### Floating Support Services

Client Group	Levels of Provision			Notes
	Lower	Higher	Actual	
Older People with Support Needs	8	170	1269	A large amount of support is delivered through the 'Lifeline' & community alarm service. This is a valued service, with an additional 237 clients taking up the service in 2002/2003 demonstrating continuing demand. There is also a Home support service providing a more intensive support service for older people.

Client Group	Levels of Provision			Notes
	Lower	Higher	Actual	
People with Mental Health Problems	25	36	20	Darlington has significantly lower levels of provision than the lower level of the ODPM profile. This is a clear area where more floating support services are needed for people with mental health problems. An accommodation sub group is currently undertaking a study of mental health provision, with the aim of increasing the number of services.
People with Learning Disabilities	2	7	9	The current level of provision falls above the supply profile range. The service is generally well used and adds to the range of options for clients with a learning disability.
People with a Physical Disability	0	1	0	There is no specific floating support provision for people with a physical disability. This area needs further investigation. However, low-level support is provided to people with physical disabilities through the various community alarm services that operate in the borough.
Single Homeless	1	49	57	The provision in the borough is above the higher end of the supply profile. Statistical information from Housing Services indicates that there remains an under-provision for this client group. The numbers of homeless who are re-housed and subsequently leave the accommodation within 12 months further underlines the need for supported accommodation.
People with Alcohol Problems	0	2	0	There is currently no provision within the borough for this client group range in the profile. The Supporting People team has been working with the DAAT to develop a model of care which will provide a range of services from hostel to shared houses, through to floating support for this group.
People with Drug Problems	1	2	0	As above
Offenders or those at risk of	1	73	10	Floating support provision for this client group falls at the lower end of the range. Data supplied by the Probation Service indicated that there is a need

Client Group	Levels of Provision			Notes
	Lower	Higher	Actual	
offending				for an increase in services in this area.
Young People at risk	3	30	0	There is no floating support provision for this client group. The Supporting People team is working with the support provider to integrate this service more closely to Housing Service's own scheme.
Women at risk of Domestic Violence	0	1	0	There is a strong and effective Domestic Violence Forum, which has prioritised outreach support for victims of domestic violence. This is an area requiring further investigation. Outreach Support is currently available but not funded through Supporting People.
People with HIV/AIDS	2	26	0	There is no provision for this group at present. The research commissioned by the SP team will establish the level of need for this client group.
Homeless Families	0	2	8	A recently developed 8-unit floating support service for teenage parents has introduced some services to this client group. A recently developed floating support service for teenage parents has introduced some services to this client group. However are no generic schemes for homeless families in the borough.
Refugees	0	1	0	There are no floating Supporting People funded services for refugees in Darlington. There are indications of a need for support services for this client group. Research work also identifies a level of need. The authority does take a flexible approach in allowing asylum seekers access to assistance established as part of the NECASS contract.
Generic	0*	0*	8	
HIA	0*	0*	72	The HIA service in Darlington was transferred to a new managing agent in 2003, and is continuing to increase the range of services which it provides.
<b>Total</b>	<b>43</b>	<b>400</b>	<b>1453</b>	Floating support provision is at the low end of the range. However, these services are currently being developed in the Borough. The areas for increased provision have been highlighted above.
