

DARLINGTON STRATEGIC (SINGLE) NEEDS ASSESSMENT 2011/12
KEY MESSAGES

SUMMARY REPORT

Purpose of the Report

1. The Directors of Public Health, Children's Services and Adult Services have a statutory duty to produce a Joint Strategic Needs Assessment (JSNA) to inform decision makers and stakeholders about the health and social care needs of Darlington people. The Strategic Needs Assessment (SNA) is a refresh of the 2010 report and includes a broader range of data.
2. The purpose of the report is to present key issues and actions from the SNA to Members of the Health and Partnerships Scrutiny Committee.

Summary

3. The SNA brings together in one single point relevant information available on the needs of Darlington's population. It importantly combines quantitative data with softer intelligence and feedback from the community and service users. Intended to provide a powerful tool for defining priorities and shaping future services for Darlington it also highlights areas where we need to do more to improve the health and wellbeing of our communities' and specific health and social care issues that require targeted actions.
4. The SNA helps different partners to have the intelligence they require to ensure commissioning strategies work together for better provision of services for those areas of greatest need.
5. A new SNA in 2012/13 is being developed using the toolkit 'Joint Strategic Needs Assessment: A Springboard for Action' published by the Local Government Improvement and Development Healthy Communities Programme. This will help us further focus on the opportunities within our communities as well as areas of greatest need.
6. In April and May 2012, a number of workshops were held with a range of partners to consider the key messages and potential priorities. Four partnership assemblies were attended by over 100 individuals from a range of agencies.

Recommendations

7. It is recommended that Members note key messages from the Strategic Needs Assessment 2011/12.

Miriam Davidson, Director of Public Health, Darlington

S17 Crime and Disorder	This report has no implications for Crime & Disorder.
