

Notes:

1. Proposed new steps are shown in red.
2. Proposed basic step size, which does not take into account any nosing, will be a 150mm riser with 300mm going.
3. This will give 12 No. total steps at the south end which will decrease down to zero and at the North end where the bottom footway and Town Hall forecourt meet.
4. This draing shall be read in conjunction with the cross sections that are taken along the top step alignment. See drawings PD02, PD03, PD04, PD05, PD06, PD07, PD08 & PD09.
