Catherine

I've arranged an internal sit down with the Birse team to look what we need to do in the first few weeks of EC1, to assist me in this i need your best guess on when the following will be available;

- Stats drawings for advanced trial hole works

If you could get back to me before close of play tomorrow (20/07/05) that would be good.

Thanks

Dave,

I have spoken to my colleagues regarding you 'to do' list.

- Stats drawings for advanced trial hole works – there are lots of drawings for you to go through. We will probably be able to bring these to the team building meeting to hand over to you.

(Don't send any emails to this email address as I am only sitting here temporarily)

Kind regards,
