Premises: SLOAN'S
20-22 GRANGE ROAD
DARLINGTON, DL1 5NG

SUPPLEMENTARY INFORMATION

Since the production of the main report dialogue has continued between the Environmental Health Service and the Applicant Company in respect of the concerns expressed by the Environmental Health Manager. This has resulted in the following conditions being mutually agreed as follows:

1. Each day that recorded music and/or dancing takes place a check shall be carried out on an hourly basis to ensure that such entertainment provided within the premises is not audible in Grange Road
2. On each day that recorded music and/or dancing takes place a check shall be carried out at 21.00 and 23.00 at any surrounding business that is open to ensure that such entertainment provided at the Applicant Company's premises is not audible in the receptor premise. If such entertainment is provided prior to 19:00 then additional checks must be carried out at intervals of no greater than 2 hours
3. All checks carried out in accordance with the preceding two conditions shall be recorded in a log book. The information recorded shall include the date, time, person carrying out the check, the results of the check and what remedial action, if any, is taken.
4. The Applicant Company and/or their staff shall record details of all noise complaints made directly to them in the log book required by condition above. The information recorded shall include the date, time, person recording the complaint, the details of the complaint and what remedial action, if any, is taken. The log book shall be made available at any time to any Authorised Officer of Darlington Borough Council, the Police and the Fire Service
6. All windows to the premises shall be kept closed at all times when recorded music and/or dancing is offered
7. The doors to the premises shall be kept closed at all times when recorded music and/or dancing is offered other than to allow for the ingress and egress of visitors

On the basis that these conditions are to be added to the licence, by virtue of the Applicant Company agreeing to amend the Operating Schedule to incorporate the conditions above, the Environmental Health Manager has withdrawn this representation.

Sloan's contested application to vary premises licence 10 June 2013

The additional conditions have been forwarded to the 2 "Other Persons" for consideration but at the time of preparing this supplementary report there had not been a response from either party.

CONCLUSION

Should Members decide to grant all or part of the application to vary the premises licence, the conditions detailed in this supplementary report must be applied to such grant of licence. These will be in addition to those detailed in the main report and any other conditions Members may consider appropriate and proportionate for the promotion of the 4 licensing objectives
