(b) Overview of Adult Social Care Services - The Assistant Director, Adult Social Care, provided Members with a presentation which highlighted the importance of Social Care. The Committee was informed that Social Care responds to a wide

range of needs, aims to help people to live as independently as possible, protects people from harm in vulnerable situations, balances risks with rights, and offers essential help at times of crisis.

The Care Act, which came into effect on 1st April 2015, was the most significant change to Adult Social Care in 60 years, with the focus of the Act being on supporting people to maintain their independence and take control of their care and support. The Act will bring about major changes in the way that Social Care is funded (though some of these changes will not be implemented until April 2016), introduce a new approach to assessments and the provision of services, a new emphasis on 'well-being' and new responsibilities for early intervention and prevention.

The Committee expressed the wish to continue to receive regular update reports, in order to monitor the implementation of the Care Act, and remain abreast of ongoing developments.
