# AD17 TO APPROVE THE MINUTES OF THE MEETING OF THIS SCRUTINY COMMITTEE HELD ON 24 AUGUST 2021

**RESOLVED** – That the Minutes of the Adults Scrutiny Committee held on 24 August 2021, be accepted as a correct record, with the exception of Minute AD12/Aug/21 to read 'renewable energy' not 'renewal energy'.

# AD18 COVID RESPONSE - VERBAL UPDATE

The Service Manager, Contracts and Brokerage provided a verbal update on the ongoing response to the Covid-19 pandemic, specifically in relation to care providers.

It was reported that there were Covid outbreaks at six Older Peoples Care Homes and two Care Homes for Disabled Adults (Mental Health/Learning Difficulties) care homes at the time of the meeting – 24 residents and 26 staff either have had or currently have been Covid positive and these outbreaks were being managed and contained by the closure of the homes to visitors and admissions and the Homes being advised to undertaken risk assessments in relation to an admissions.

There was also an outbreak in one of the Extra Care Schemes currently (Mayflower Court) – This was being contained within the scheme with a suspension on group activities such as meals in dining room and activities.

With regard to vaccinations, it was reported that 97 per cent of staff in Care Homes have had their first vaccination and 92 per cent of staff have had their second dose and residents are now being offered their Covid Boosters and 442 booster jabs had been administered in Old Person Homes. 628 flu vaccines had also been administered across all care homes but it was anticipated that as homes come out of outbreaks this number will increase.

The Service Manager outlined the continued pressures experienced by Local Domiciliary Care Providers operating under Business Continuity Planning arrangements and the general staffing issues that are being experienced across the whole of Social Care, nationally and regionally. Members questioned what support was being offered to the staff in Care Homes and were advised that Business Continuity Plans were put in place in the Homes with staff shortages to prioritise workload.

**RESOLVED** – That the content of the update be noted.

#### AD19 FRAILTY PATHWAY SYSTEM UPDATE

Members of this Scrutiny Committee received a presentation to update Members on the Frailty Pathway System from Paula Swindale, Head of Commissioning and Strategy, NHS Tees Valley Clinical Commissioning Group, Joss Harbron, Assistant Director Adult Social Care, and Dr Ewan Tevendale, Consultant, County Durham and Darlington NHS Foundation Trust.

The presentation outlined the four Strategic Plans that had been in place since 2014 namely the Health and Well Being Strategies Priorities for Older People; the Better Care Fund; South Integrated Care Partnership Frailty Pathway; and Ageing Well.

Frailty priorities were outlined including strategic outcomes to optimise the quality of care for those people admitted to hospital and the transformation ambitions to discharge people as close to home and ensure they had the right support to avoid re-admission.

The definition of frailty was outlined and the ways in which the Responsive Integrated Assessment Care Team (RIACT) supported people presenting with frailty was highlighted in the presentation, including the wider Social Care support to ensure interventions happen at an early stage to avoid admission to hospital; and outlined the Acute Frailty developments at Darlington Memorial Hospital (DMH) and the acute services offered, seven days a week, with the support of the private sector, Rapid Response, Care Homes and domiciliary provision. It was also highlighted that enhanced care in Care Homes was also a priority with more direct interventions to promote independence within Care Homes.

The presentation provided a set of data (from 100 patients) to show the flow and length stay outcomes for patients with frailty at DMH and feedback from patients, and it was also reported that over 2000 referrals had been seen by the Acute Frailty Team from April 2021 to October 2021; detailed how people were being supported at discharge, including the Trusted Assessment relationships between health and social care within Darlington; and outlined the future plans which included within the Ageing Well Strategy, refreshing the Health and Well Being Board priorities; and highlighted some of the challenges faced including the workforce and Covid impact on delivery, recruitment and retention.

Members' questions from the presentation were in relation to the outcomes between care within the home compared to being in a Care Home; how frailty had been affected by the lack of face-to-face at General Practitioners; how the Team link in with other preventative services within the home, ie. home insulation/fuel poverty; monitoring of re-admissions to hospital; changes to the service due to the Covid Pandemic; and issues arising from delays in the Ambulance Service.

**RESOLVED** – That Paula Swindale, Dr Tevendale and Joss Harbron be thanked for their interesting and informative presentation.

# AD20 QUALITY STANDARDS MONITORING OUTCOMES 2020-2022: AGREEMENT FOR THE PROVISION OF RESIDENTIAL CARE FOR ADULTS AND OLDER PEOPLE AND OLDER PEOPLE WITH MENTAL HEALTH PROBLEMS 2013-2023

The Group Director of People submitted a report (previously circulated) to inform Members of the outcome of the quality standards assessment for 2020-22 and the level of compliance against the

quality standards will determine the fee levels for the current year.

It was reported that the current agreement for the provision of Residential Care for Adults and Older People with a Mental Health Problem commenced 1 April 2015 and will remain in place until 31 March 2023 due to an extension of the Agreement agreed by all of the providers.

It was also reported that the Covid-19 pandemic which resulted in a national lockdown on 23 March 2020 had a significant impact on the care home sector and the monitoring visits into care homes was postponed and an alternative process was developed.

The Committee were informed that there had been an improvement in the number of homes who had achieved an A Grade, with 15/19 (79 per cent) achieving an A Grade compared to 11/19 (61 per cent) in 2019; no homes achieved less than eight standards which was an improvement on 2019, 4/19 (21 per cent); and overall, all but one of the previous A Graded homes had maintained this grade and five homes had improved on previous gradings.

Members enquired about the reasons for two Care Homes achieving two grades higher and how the issue with nutrition was being addressed in Care Homes; and expressed some concern about self-assessment and were advised about the mechanism in place for the local authority to amend a self-assessment grading, if required.

**RESOLVED** – That the information provided within the submitted report be noted.

#### AD21 WORK PROGRAMME

The Group Director of Operations submitted a report requesting that Members gave consideration to the Work Programme items scheduled to be considered by this Scrutiny Committee during 2021/22, and to any additional areas that Members would like to be included.

The Democratic Officer advised Members that the MTFP had been added to the agenda of the Ordinary Meeting of this Committee scheduled for 21 December 2021, in consultation with the Chair; and the deferral of the Review of the Adult Social Care Performance Framework in light of the national changes to Adult Social Care Legislation to the Ordinary Meeting of this Committee on 21 December 2021.

**RESOLVED** – That the contents of the report be noted.

# ADULTS SCRUTINY COMMITTEE 21 DECEMBER 2021

## **MEDIUM TERM FINANCIAL PLAN**

#### **SUMMARY REPORT**

# **Purpose of the Report**

1. To consider the Medium Term Financial Plan (MTFP) for 2022/23 to 2025/26.

# Summary

- 2. Attached at **Annex 1** is the MTFP report which has been approved by Cabinet as a basis for consultation.
- 3. Members received a briefing on this Plan by the Group Director of Operations on 15 December 2021.

### Recommendation

- 4. (a) Members are requested to consider the MTFP 2022/23 to 2025/26 and forward any views, and in particular, those in relation to those services and finances which are specifically within the remit of this Scrutiny Committee.
  - (b) That the Chair, in consultation with the Lead Scrutiny Officers supporting this Scrutiny Committee, be given authority to agree the Notes/Minutes of this Ordinary Meeting of the Committee, to enable the Notes/Minutes to be considered at a Special Meeting of the Economy and Resources Scrutiny Committee scheduled to be held on 20 January 2022.

## MAIN REPORT

# **Information and Analysis**

- 5. Cabinet at its meeting held on 7 December 2021, approved the attached Medium Term Financial Plan as a basis for consultation.
- 6. Each of the Council's Scrutiny Committee's will be meeting to discuss and consider the overall contents of the MTFP, however, Members are asked to particularly consider those services and finances within the plan which specifically relate to those areas within their remit, and forward any views to the Economy and Resources Scrutiny Committee for consideration.
- 7. Once all the Scrutiny Committees have met, a further special meeting of the Economy and Resources Scrutiny Committee will be held on 20 January 2022, to agree a formal response to Cabinet on behalf of all the Scrutiny Committees as part of the consultation. The Chairs of the other Scrutiny Committees will be invited to attend this meeting to present their findings and answer any questions.
- 8. In view of the timescales involved in responding to the consultation, it is not possible for the individual Scrutiny Committees to formally approve their Notes/Minutes prior to the special Economy and Resources Scrutiny Committee on 20<sup>th</sup> January, 2022, and it is therefore being suggested that authority be given to the Chairs, in consultation with the Lead Scrutiny Officers, to agree the Notes/Minutes in advance of the next Ordinary

Meetings. The Notes/Minutes will still be an item on the agenda of the next meeting for formal approval as usual.

# CABINET 07 DECEMBER 2021

# MEDIUM TERM FINANCIAL PLAN INVESTING IN AND DELIVERING SUCCESS FOR DARLINGTON

# Responsible Cabinet Member - Councillor Heather Scott Leader and all Cabinet Members

Responsible Directors – Chief Officers Executive

#### SUMMARY REPORT

# **Purpose of the Report**

1. To propose a Medium Term Financial Plan (MTFP) for 2022/23 to 2025/26 for consultation including setting a budget and council tax increase for 2022/23.

# Summary

- 2. Whilst 2020/21 was undoubtedly the year of Covid, 2021/22 will be remembered as the year we started to live and adapt to the difficulties and opportunities it created. The pandemic fundamentally impacted on the priorities of, and the way in which the Council conducted its business. The financial pressure on the public sector as a whole and the Council more specifically have been significant over the last couple of years, and this was on the background of a decade of significant financial challenge following the economic downturn and the reductions in public sector spending.
- 3. Despite this the Council has been successful in responding to these challenges, both in the last couple of years supporting residents, business and NHS colleagues in their response to the pandemic, and more generally by continuing to provide vital core services and investing the resources available in growing our economy to deliver success for the benefit of all. This is becoming increasingly difficult in the light of the pandemic with demand for services increasing, particularly in regard to social care where costs are predicted to rise substantially; this is alongside reduced income in our leisure and cultural venues as residents understandably are cautious in rushing back to normality. There are also external pressures in the wider economy with transport, fuel and material prices all increasing which have an impact on the day to day running of the Council.
- 4. The October 2021 Spending Review announced a three year local government settlement, though it is likely there will only be a one year finance settlement at local level. This means the MTFP is based on a one year funding basis, and whilst this is unhelpful for planning purposes, it is understandable given the fair funding review has been paused for the last few years and time will be needed to establish robust allocation and distribution of departmental budgets.

- 5. The consequence of this is that the 2022/23 Budget and MTFP has an eye to future years but does not seek to presume what the future will look like. It aims to ensure that the Council can continue to provide vital services in response to Covid should it be required and importantly continue to provide our core offer level of services to the residents of Darlington regardless of Covid.
- 6. The Council has performed well in responding to the financial challenges and has taken early action in order to ensure that it is ahead of the curve and not therefore pushed into short term decisions. The outcome of the significant consultation and detailed budget review exercise in 2016 was a core offer budget with a small provision for discretionary services and this is the base level the new MTFP has been prepared on.
- 7. A healthy level of reserves has been maintained for medium term stability and this is now a crucial component of the budget strategy which will allow time for the key ambition of economic growth to take effect.
- 8. In addition to the core offer budget a futures fund was established from reserves in the following five areas;
  - (a) Community Safety
  - (b) Maintain an attractive street scene environment
  - (c) Maintaining a vibrant town centre
  - (d) Developing an attractive visitor economy
  - (e) Neighbourhood renewal
- 9. Whilst this was for a time limited period it is clear the ongoing commitments in the fund for example community safety and developing a vibrant town centre are key to driving our ambition of growing the economy, therefore these ongoing elements have been mainstreamed into the budget from 2025/26.
- 10. The core offer remains challenging with some significant pressures arising as mentioned, nevertheless, through tight financial management, innovative financial investments and increased income from economic growth successes, the Council can still deliver the agreed balanced plan, finance the MTFP to 2025/26 whilst retaining usable balances of £0.895m.
- 11. In summary, if the recommendations are agreed, the Council's financial position is robust with a four-year balanced MTFP which will allow net revenue investment in Darlington and its residents of over £100m per year, capital investment of over £157m, and create the conditions and opportunities for growth.

# Recommendation

- 12. It is recommended that Cabinet approve for consultation,
  - (a) the Revenue MTFP as set out in **Appendix 6** and the Capital programme as set out in **Appendix 7**, including the following:
    - (i) A council tax increase of 1.99% plus a 1% Adult Social Care Precept to help fund social care for 2022/23.

- (ii) The Schedule of Charges as set out in **Appendix 3**.
- (iii) Mainstreaming the ongoing services provided by the futures fund into the budget from 2025/26 as set out in paragraph 63.

## Reasons

- 13. The recommendations are supported by the following reasons:
  - (a) The Council must set a budget for the next financial year.
  - (b) To enable the Council to continue to plan services and finances over the medium term.
  - (c) To ensure decisions can be made in a timely manner.
  - (d) To ensure investment in our assets is maintained.

	or Care Leavers.

## **MAIN REPORT**

# **Background and context**

- 14. The Council has faced significant financial challenges over the last decade as the Government responded to the worldwide economic downtown by introducing public sector spending reductions. This has been exacerbated by the pandemic and a growing demand for services, particularly in relation to social care, both Adults and Children's services.
- 15. The Council has performed well in responding to these challenges and following an in-depth review of all service provision in 2016 took early decisions in order to ensure that it is ahead of the curve and was not pushed into short term decision making. A good level of reserves has been maintained and this will now be a crucial component of the budget strategy. Given the essential emphasis on responding to Covid, recovering from Covid and the background of a decade of savings there is much less scope for new and significant savings proposals. Reserves are therefore key to ensuring that a medium term approach to planning can take place and time created to see the impacts of the economic growth strategy.
- 16. In addition to the core budget, following good progress made on achieving savings, strong cost management and innovative treasury initiatives, the Council was in a position to add back some discretionary services from unallocated balances which were key to growing Darlington 's economy and consistent with the council's priorities. This was called the Futures Fund and covered the following areas;
  - (a) Community Safety
  - (b) Maintain an attractive street scene environment
  - (c) Maintaining a vibrant town centre
  - (d) Developing an attractive visitor economy
  - (e) Neighbourhood renewal
- 17. The funds are being utilised as expected to make positive change and are a significant contributor to growing Darlington's economy, whether that be more attractive streets and green areas to festivals and safer streets.
- 18. As time has passed it has become clear a number of the services funded via the futures fund are key to the aim of growing our economy and without them would have a significant impact on that key aim. Therefore, it is proposed the ongoing elements of the fund are mainstreamed into the budget (from 2025/26 onwards) and are considered with all other funded services in any future budget discussions.
- 19. The core offer budget plus the futures fund as noted above is the starting position for this year's MTFP.
- 20. Income and resource levels will be discussed later however whilst Local Government has received a three year funding package, at individual council level it is anticipated there will only be a one year finance settlement. Unfortunately, this along with the turbulent times we find ourselves in makes it is very challenging to predict expenditure and income levels moving forward so best estimates have been used and assumptions made on the impact of Covid-19 on budgets in 2022/23 and the income and resources we will receive.

# **Financial Analysis**

# **Projected Expenditure**

21. As noted previously the core offer budget and futures fund is the level on which the MTFP is based upon. Estimates attached at **Appendix 1** have been prepared based on current service levels and include known pressures and efficiencies which are summarised below and detailed in **Appendix 2.** The most significant are discussed in the following paragraphs. The assumptions used when preparing the estimates are set out at **Appendix 4**.

Summary of Pressures	2022/23 £m	2023/24 £m	2024/25 £m	2025/26 £m
Efficiencies and Savings	(1.782)	(0.954)	(0.745)	(0.783)
Increased Service Demand	2.073	2.350	2.394	2.413
Price Inflation	1.069	1.176	1.399	2.733
Reduced Income	0.667	0.678	0.647	0.647
Other and Contingencies	1.229	1.248	1.298	1.251
Covid 19 Pressures	0.738	0.181	0.186	0.191
	3.994	4.679	5.179	6.452

- 22. **Efficiencies/Savings** there are significant anticipated savings over the life of the MTFP of £4.264m. Our investment returns are higher than anticipated with the dividends from our joint venture partnership £0.700m higher over the next couple of years. Other efficiencies cut across all areas and include staff savings and a realignment of running costs achieved following the different ways of working throughout the pandemic.
- 23. Increased Service demand is the most significant strain on the budget and within this category the main pressure area is Adult Social Care. Pressures in this area are being felt nationwide and whilst the new social care funding reforms will assist people paying for their care from 2023, they do not assist with the pressure being faced now. There has been a significant increase in demand for home care with an additional 1,771 hours per week commissioned. In addition, there are pressures from demographic, residential care, day care, direct payments, and the provision of respite requirements. Over the life of the MFTP there is a £7.5m demand pressure.
- 24. **Price Inflation** our adult social care contracts are linked to various inflation factors, the main one being the national living wage which has been set at £9.50 per hour from 1 April 2022 an increase of 6.6% and this automatically feeds through to the care providers. There is also the National Insurance increase of 1.25% which again will be fed through the contracts. Whilst this is a significant pressure on the Council's finances the pressure on the care sector is recognised and these uplifts are required to ensure stability. The pressure from contract uplifts is £4.6m across the MTFP.
- 25. The other significant pressure is the utilities increase, again being seen across the country and which has a direct impact on our running costs, from the buildings we operate to the street lighting electricity usage. Our energy is purchased through the North East Procurement

Organisation and the impact is not as high as it could have been as fuel was pre purchased before the rises. Energy efficiency measures are continually being looked at, for instance the LED street lighting programme, however the significant increase cannot be contained within existing budgets

- 26. **Reduced Income** the increase in children needing support from the local authority has put pressures on both staffing levels and the placement budgets over the last few years. This pressure is being felt across the country with most Councils' reporting an increased investment requirement in this area. The Council was awarded a £1.2m grant from the DfE to assist in transforming social care practice within Darlington and the team is working in partnership with Leeds City Council who have already been through this process. The ultimate aim is to improve outcomes for children, focus on prevention and reducing the number of children who need to come into care and ultimately reduce the budget pressure.
- 27. Unfortunately, due to Covid the scheme didn't progress as quickly as anticipated and the funding did not extend to 2022/23. In order to achieve the savings required the programme needs to be extended for a further year, the cost is £0.533m however it is felt this investment will achieve longer term savings to help the service achieve a sustainable footing.
- 28. The patronage of the Council's car parks is at 75% of pre-covid levels and anticipated to remain at that level as the shift to home working and more sustainable modes of transport grow. The position will be constantly reviewed however it is prudent to put a marker down in the MTFP to acknowledge the potential pressure at this point.
- 29. **Other and Contingencies** the main pressures here are for the additional 1.25% Employers National Insurance contributions payable from April 2022 and also a provision for an employee pay award. These are both estimated at this point in time and based on current staffing levels.
- 30. **COVID-19** the coronavirus pandemic had a significant effect on the Councils expenditure and income budgets over the last 18 months. The government has responded well with help to offset a large proportion of these pressures however this support has now come to an end. Whilst in the medium term it is anticipated most income in our leisure and culture venues will return to pre covid levels there remains a pressure in 2022/23 as visitors become more confident in returning. The area anticipated to have an ongoing pressure is waste disposal where an increase in household levels of waste have remained high, it is anticipated they will reduce gradually over the coming years but not to pre covid levels.

# **Previous budget provision**

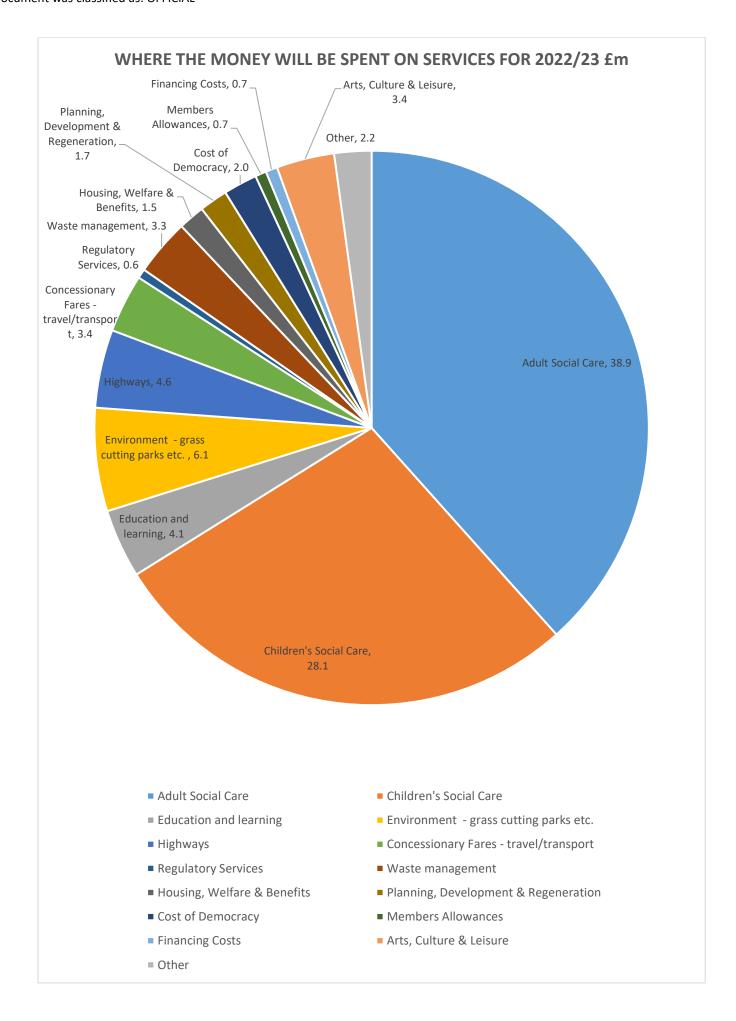

31. **Stronger Communities Fund** – the stronger communities fund was established to assist in grass roots projects and initiatives in each of the elected members wards. It was agreed in the 2021/22 budget that £0.001m was made available to each member to utilise as they see fit in their communities and reviewed on an annual basis. The analysis will be completed over the winter and if deemed successful will be extended. At this point no provision has been made but will be changed in the financial Draft for recommendation in February 2022.

# **Total Expenditure**

32. Taking the above savings and pressures into account the summarised projected expenditure is shown in the table below: -

	2022/23 £m	2023/24 £m	2024/25 £m	2025/26 £m
People Services	65.798	67.640	70.342	72.807
Chief Executives Office & Economic Growth	1.288	1.334	1.366	1.455
Services	17.947	18.400	18.901	19.316
Operations	15.909	16.333	16.762	17.105
Financing costs	0.637	2.921	2.933	2.992
Investment Returns - Joint Venture	(1.864)	(1.480)	(1.130)	(1.130)
Council Wide Pressures/(savings)	1.037	1.054	1.079	1.106
Council Wide Contingencies	0.525	1.512	1.512	1.512
Total Expenditure	101.277	107.714	111.765	115.163

33. This proposed net investment in services of £101m in 2022/23 covers a wide range of areas from refuse collection to adult residential care, from street lighting to school crossing patrols and grass cutting to our Leisure and culture provision. The chart below shows the split of investment and as can be seen social care both children's and adults are the most significant proportion of funding, accounting for nearly two thirds of the overall budget.

# **Projected Income**

# **Spending Review and Local Government Finance Settlement.**

- 34. The Autumn budget and spending review was announced on the 27 October 2021, and whilst the specific detail in regard to Darlington's funding won't be known until the Local Government Finance Settlement, anticipated mid-December, the Chancellors Autumn Statement gave local government an indication on what could potentially be expected in a few areas.
- 35. Those assumptions have been included in following paragraphs along with best estimates, given the most up to date information available at the time of writing and will be updated in the MTFP proposal at the February 2022 Cabinet meeting. All assumptions are summarised in **Appendix 4** and detailed in the relevant sections below, however the overriding principle is that we will receive a cash equivalent grants funding for all government funding streams unless otherwise stated.

# **Core Grant funding to Local Government**

- 36. **Revenue Support Grant (RSG)** has become a reducing element of the Council core funding over recent years however it has been assumed this will continue into future years at a cash equivalent position. Furthermore as the New Homes Bonus scheme is coming to an end, and the funding for NHB was top sliced from RSG, an assumption has been made this will be returned to Local Government and therefore has been included in the draft budget.
- 37. **New Homes Bonus (NHB)** is included in core Government funding as it is top sliced from RSG. As mentioned above this scheme is winding down with only legacy payments being made.
- 38. **Better Care fund** Members will recall that previous year changes to the NHB scheme along with the reduction in RSG funded the Improved Better Care Fund which was separate to the funding stream allocated direct to the NHS. This was in recognition that Councils were under significant pressure in regard to social care funding, it was initially a three-year pot but continued in 2020/21 and 2021/22 as core funding. The spending review confirmed this will continue into 2022/23 and for estimate purposes it has been assumed this funding will continue over the life of the MTFP given it is part of the core funding settlement.
- 39. **Social Care funding** In recognition of the significant pressures being faced by Councils in social care due to the growing elderly population and increases in children looked after, over the last couple of years the Chancellor announced additional funding for Council's through direct grant and the adult social care precept. It was intimated this would continue and it has been assumed this funding will continue into future years on a cash equivalent basis.
- 40. **Spending Review 2021** In the Autumn Statement the Chancellor recognising the significant pressures faced by councils and the important role they have taken throughout the pandemic announced a funding package for Local Government of £1.6bn of which £0.1bn will be used for Cyber Security and Troubled Families programmes. The remaining £1.5bn will be distributed to councils. The distribution method hasn't been announced and won't be until the Local Government provisional finance settlement. The sum will need to cover the cost of the National Living Wages increases along with the 1.25% additional National Insurance contributions for the Council's own workforce and that of its contractors and suppliers.

41. As there is not a distribution method available yet, an assessment of previous grant allocations has been made, and if it follows a similar pattern the Council would receive £2.7m in funding which has been built into the draft MTFP.

# **Council Tax Income**

- 42. Due to reduction and reliance on Government funding over the last ten years, Council Tax is now by far the largest single funding stream and will increase further as a percentage over the coming years representing 61% of projected resources anticipated by 2025/26. The on-going increases reflect the Cabinet's view that income from Council Tax needs to increase to protect key service provision and enable investment in vital services. Members will recall that a 1% increase in Council Tax equates to an annual revenue of £0.560m.
- 43. The Council Tax referendum limit has been set at 2% for 2022/23 and this MTFP assumes a council tax increase of 1.99% for 2022/23 and across the rest of the MTFP. In addition, Local Authorities have been given access to additional social care funding through an adult social care precept of 1% for the next three years, this is in recognition of the extreme pressure councils are facing, particularly in regard to demand and the increasing demographic of older people and rises in people with complex needs. As can be seen in the chart in paragraph 33, Adult Social Care is by far our largest overall budget with a spend of £38.9m. The precept is crucial to enable this investment in social care to continue and provide the on-going sustainability of the service. This MTFP proposes the 1% precept is levied in 2022/23 but does not commit to future years and will be reviewed in the next MTFP cycle. The precept is in addition to the 1.99% Council Tax.
- 44. The Council Tax base was affected by Covid-19 firstly due to the increase in Local Council Tax support claimants (LCTS) and also a slight reduction in housebuilding in the earlier part of 2020. Whilst LCTS claimants remain higher than the pre covid position they are reducing month by month and furthermore housing building has started back in earnest. Moving forward planning estimates anticipate growth levels to be an average of 473 Band D equivalent properties over the period of this plan which is a growth on the tax base of 1.36% per annum. These figures have been used to prepare the estimates; clearly should this be any different income levels will differ. The collection rate (of collectable debt) is anticipated to remain at 99% in 2022/23, but as mentioned previously other factors are impacting on the overall income levels.

# National Non-Domestic Rates (NNDR)

- 45. The Council retains 49% of NNDR collected and can gain or lose depending on whether the net tax collected increases or decreases. The Government via the valuation office sets rateable values and the rate paid in the pound is increased each year in line with the Consumer Price Index (CPI). The business tax-base is far more volatile than the council tax base and requires very close monitoring. In addition to the potential to "lose" income due to business closures the Council also carries the risk of losing appeals by businesses against valuations.
- 46. Growing the economy is the key priority in the Council Plan and the Economic Strategy gives priority to increasing business within the borough and significant effort has been put into achieving growth. This has been rewarded with a positive net increase in NNDR collection. Sites such as Symmetry Park and Central Park are all contributing to the growth and the recent announcement of a Government hub Darlington led by her Majesty's Treasury Department will

- provide a tremendous boost to the town and will undoubtedly lead to other businesses moving into the area.
- 47. Notwithstanding these major developments, attracting businesses into the Town by their very nature takes time and upfront investment and therefore is an area which needs continued prioritisation and pump prime funding so growth can continue. It needs to be remembered that net growth in NNDR collected relies on growth outstripping revaluations and reductions which can be very challenging in the current economy.
- 48. One area of uncertainty is the business rate reset. The business rates system changed in 2013 and Councils received 49% of the NNDR collected above the base level, this was to incentivise councils to drive economic growth. The system was due to be reviewed in 2020, with the intention of resetting the baseline and a review of need across the board and a subsequent redistribution of funding. This was part of the Fair Funding Review which has been postponed for a couple of years and there is no indication of whether this will happen in 2022/23. As Darlington has seen a healthy increase in business rates any reset would likely reduce funding in this area. Given the review has been postponed and there would need to be consultation on any new formula system it has been assumed this would not impact on Darlington until 2024/25.
- 49. The in-year collection rate target for NNDR is 98.0% and as at the end of October 2021 is 62.2% and on track to achieve the target.

#### **Collection Fund**

50. The Collection Fund account reflects the statutory requirements for the Council to maintain a separate Fund in relation to the operation of Council Tax and the Business Rates Retention Scheme (BRRS). The Fund records all of the transactions for billing in respect of Non-Domestic Rates (NNDR) and Council Tax, exemptions and discounts granted, provision for bad debts and appeals and payments made to the Council's General Fund, the Police and Fire and Rescue precept authorities and Central Government. The collection fund is in a healthy position and it is not anticipated there will be a call on the general fund during 2022/23.

# **Other Grants**

51. Set out below are the estimated specific grants which as the title suggests are for specific areas of expenditure as dictated by the government and cannot be used for other areas. The main one being the Public Health ring fenced grant. These grants are included in service estimates at Appendix 1.

# **Total Income**

52. The table below summaries the Council's estimated income for the period of this plan which thanks to the increase in spending announced in the Autumn Statement, continued economic growth and house building activity, and the subsequent increases in council tax and NNDR, confirms a much-needed increase in income given our expenditure pressures.

# **Projected MTFP**

53. Set out in the table below are the projections based on the income and expenditure analysis discussed in the previous sections along with the required use of balances over the period. The projections assume additional futures funding for ongoing commitments in 2025/26 is agreed and allocated as noted in paragraphs 62-63.

## **Futures Fund**

- 54. As noted earlier to supplement the core offer a futures fund was established using unallocated reserves. In total £7.564m has been allocated to the fund over the years, a mix of one-off funding across five themes (£4.764m) and an ongoing revenue stream for Community Safety and Maintaining an Attractive Street Scene Environment (£2.8m).
- 55. The fund is being used to support the core offer budget, in particular areas which will help grow Darlington's economy through keeping the borough clean, safe and healthy whilst valuing our heritage and culture, alongside working with communities to maximise their potential.
- 56. To date £4.358m has been committed to the themes with a balance of £0.406m remaining. A summary of the commitments is noted below.

# Futures Fund - Theme 1 - Community Safety (£1.134m)

57. £1.115m of the fund has been committed, £1.040m on staffing across the seven years. This is to improve resilience and robustness in the team particularly as community safety is a key priority for the Council. £0.075m was for the purchase of a mobile CCTV camera and deployment over the years.

# Futures Fund - Theme 2 - Maintaining an Attractive Street Environment (£0.561m)

58. £0.216m has been allocated to employ an arboriculture team leader to help address the increasing workload in regard to trees. £0.125m for a street orderly concentrating on keeping the arterial roads and areas into Darlington clean, £0.098m on a back-lane crew to help tackle

fly tipping and £0.059m on trees in the town centre along with a memorial seat for those victims of COVID. The remaining funding has not been committed yet. The core funding allocation of £0.300m per annum has made a significant impact on the street environment. Grass cutting returned to a 12-15 day cycle which improved the look of the borough over the summer period and more frequent cleanses and litter picks have made a noticeable difference. Floral displays helped in achieving the Northumbria in bloom awards accolades.

# Futures Fund - Theme 3 - Maintaining a Vibrant Town Centre (£1.693m)

59. The Town Centre faces a number of challenges as do many towns across the country due to the increase in on-line shopping and out of town retailing. £1.463m of the funding has been committed across a number of areas including a one off grant to the House of Fraser to facilitate the store remaining open following the financial difficulties they faced and the announcement of store closures across the country. The fund is also supporting a full Town Centre events programme such as the Festival of Ingenuity, Pride and the Ice Sculpture installations all of which encourage footfall. The commitment to being Fireworks back to Darlington in 2022 is also being funding from this pot.

# Futures Fund - Theme 4 - Developing an Attractive Visitor Economy (0.500m)

60. £0.435m has been committed against this theme including Heritage Action Zone funding and the development of live stream events and a feasibility study exhibition of early locomotives for the 2025 200th Anniversary of the opening of the Stockton and Darlington Railway.

# Futures Fund - Theme 5 - Neighbourhood Renewal (0.876m)

61. One of the Council priorities is to work with communities to maximise their potential and enjoy a good quality of life. The funding in this theme is aimed at assisting with this priority and £0.848m has been allocated to various initiatives including £0.050m to the Darlington Credit Union to enable them to continue work in addressing financial hardship and across households in Darlington; £0.236m for a skills and employability officer across the years to understand what skills are required in the borough and take action to promote employment; £0.221m to run initiatives and part fund a programme officer for the Northgate project which is a multiagency programme providing a range of interventions from support and advice to enforcement activities where required in order to improve outcomes for local residents; £0.180m for specialist benefits advice to assist residents claiming benefit entitlements; and £0.020m for the pilot In2 Programme which introduces children who wouldn't usually have access to arts and cultural experiences. There has also been an allocation of £0.032m for the initial set up of the bread and butter thing which has been a huge success and now has over 1,600 members and £0.035m to support work to embed community wealth building across the Council and partners.

# **Futures Fund – ongoing commitments**

62. As time has passed it has become clear a number of the services funded via the futures fund are key to the aim of growing our economy and without them would have a significant impact on that key aim. A significant proportion of the futures fund expenditure is on staffing to carry out services over and above the statutory level, for example Community Safety including enforcement officers; Street Scene activities including grass cutting, street cleaning, back lane clear ups and tree work; helping neighbourhoods with our skills and employability officer. In

total there are 22.7 full time equivalent staff funded on an annual basis through this fund. Additionally, there is £0.110m allocated to the Town Centre events programme per annum to assist in maintaining a vibrant Town Centre and helping out local businesses with increased footfall.

63. It is therefore proposed the ongoing elements of the fund as shown in the table below are mainstreamed into the budget (from 2025/26 onwards) and are considered with all other funded services if expenditure needs to be reduced at a future point.

#### **Revenue Balances**

- 64. Taking into account the projected revenue out turn for 2021/22 detailed at **Appendix 5** and the utilisation of balances to fund the projected budget deficit over the four year period, leaves a projected general fund balance of £0.895m by 2025/26.
- 65. However, it needs to be noted that the MTFP is only being balanced annually by using reserves which is not a sustainable position moving forward as reserves will eventually be depleted. Also, the unallocated balances rely on building around 473 Band D equivalent houses per annum; no significant overspending; assumptions of a cash equivalent position materialising in the settlement and a Council Tax increase of 1.99% with a 1% Social care precept totalling 2.99% in 2022/23. We therefore need to be cautious particularly in light of future years estimated income, but we understand the need to invest into our services as much as possible to stimulate growth and tackle inequality.
- 66. Given the uncertainties in regard to future funding and expenditure pressures it is recommended the balance remains unallocated at this point in time to assist in future pressures and reviewed in future MTFP's when a clearer position on local government funding is given.

# **Capital Expenditure**

- 67. The Council has an extensive capital programme with significant resources invested to purchase, improve, protect and maintain our assets, to enable the council to deliver its priorities for example purchasing land to enable road improvements or investing in modernising school buildings and housing. The Council continues to deliver a significant capital investment programme in the main funded from the Housing Revenue Account (HRA) and grant or other external funding which is targeted at specific schemes and programmes such as Transport and Schools. Furthermore investment from the Tees Valley Combined Authority (TVCA) along with European and other external funding sources are being used for economic growth initiatives.
- 68. The Council can also supplement these funding sources with its own resources such as capital receipts or prudential borrowing where there is a need, however as capital receipts are limited and prudential borrowing comes with future revenue implications there must be a strong case for doing so.
- 69. In recent years there has been significant investment in economic growth either funded or pump primed by the Council, schemes such as Central Park including the National Biologics Centre and Business Central along with the Development of Feethams House which is Grade A Office accommodation, and recent Town Centre purchases are helping to make Darlington a more vibrant place to be. The Council's Investment Fund and Economic Growth Investment

- Fund are both being utilised to invest in these areas which ultimately increases business rates and the finances of the Council helping vital services to be funded.
- 70. The current capital programme stands at £269m as summarised in Table 1 below. The programme is monitored on a monthly basis and reported to Cabinet on a quarterly basis, the latest available monitoring report for the 2021/22 was presented to Cabinet on 9 November 2021 and noted the programme was within budget with the majority of schemes on target.

- 71. In additional to the current agreed programme the Council looks ahead to future capital requirements based on the principles of the capital strategy. A four year timeframe has been adopted to fall in line with the revenue Medium Term Financial Plan. Attached at **Appendix 7** are the priority proposals for addition to the plan along with the funding methods. The majority of schemes are focused on 'Housing and Transport, funded via the HRA and government grants respectively, there are also a number of Council funded corporate schemes that have already been approved.
- 72. The following paragraphs describe the major elements of the capital programme priorities for approval. Specific scheme funding release will be subject to detailed reports to Cabinet.

# Corporate schemes – funding required

- 73. As noted previously the Council can supplement government capital funding albeit options are limited in the current financial climate. Funding can come from prudential borrowing, repaid via revenue, which puts additional pressure on the revenue account or from capital receipts.
- 74. The risk assessed usable capital receipts over the next four years are in the region of £12m. Of this £1.110m has been allocated to the Eastbourne sports complex for the replacement running track and the new APG pitches and parking leaving just under £11m unallocated.
- 75. There will be many competing priorities against the available resources for both regeneration and refurbishment and these schemes will emerge over the coming year/s. At this stage members are requested to make capital provision for five priority schemes with a total value of

£3.470m which will be subject to full reports to Cabinet in due course, these are:-

- (a) **Dolphin Centre phase 3 M & E replacement and renewal works £2.200m** The mechanical and electrical installations in the Dolphin Centre are now nearly 40 years old and are well past their serviceable life cycle with some equipment likely to fail in the next couple of years. The replacement programme has been delivered in a phased way with the first two phases being completed over the past 5 yrs. Phase 3 which is the final phase needs to be completed in the next 2 years to mitigate the risk of failure of the plant and equipment and therefore closure of areas of the building.
- (b) Whinfield School replacement roof £0.620m the latest survey has determined the school will need to be completely re-roofed within a 1-3 year period. The funding received for school condition works is insufficient to fund an undertaking of this magnitude. Over the last five years ongoing maintenance work has been carried out to keep the school watertight however it is now at the point where unless this work is undertaken there will be further deterioration of the roof and a likely impact on delivery of education at the school. It would be necessary to phase the works over a three year period due to the complexity of the roof and the restrictions of having to complete the works during summer holidays.
- (c) West Cemetery drainage £0.250m Additional drainage work is being carried out as part of the extension of the burial ground at west cemetery. There is a pond close to properties on Salutation Road that collects water from the adjacent allotments and surrounding area which drains naturally, however, at times has not been able to hold the volume of water and run off has potentially contributed to residents' gardens being flooded. This area is subject to maintenance and improvement works as part of the current project. Subject to the success of the proposed drainage improvements then additional work may not be required to the pond. However, it is considered prudent to identify capital funding should the area need to be drained into the main NWL drainage system in the future.
- (d) Capitalised repairs £0.250m is required for repairs on the council building stock in 2025/26 to ensure it is fit for purpose. This is a rolling programme and funding has already been agreed for 2022/23 2024/25. Details on specific areas of spend will be brought to Cabinet for consideration.
- (e) Advanced design fees £0.150m per annum is requested for 2025/26 to ensure that resources are available to work up any new schemes brought forward in relation to economic growth including site investigations on development sites, industrial and housing land. This is a rolling programme and funding has already been agreed for 2022/23 2024/25. This funding has been invaluable in the past in enabling the Council to be site ready and without this it is likely schemes would stall and not progress.
- (f) In addition to the schemes above it is recommended the **Economic Growth Investment Fund (EGIF)** is replenished with £0.500m allocated each year. The EGIF was set up in 2017 to enable a programme of investments that were required or desired in order to deliver Darlington's ambitions for sustainable economic growth. The plan was developed as a means to implement key strategies and to set out what needs to be done in order for the Borough to accelerate sustainable, managed and planned economic growth. It was also developed in order to provide the structured framework required to ensure that a

programme of investments is created that can deliver the strategic ambitions and goals of the Council.

- (g) The fund has been very successfully deployed across the Borough and has accelerated some key regeneration schemes. Investments have been a combination of land acquisition to accommodate residential and commercial development, through to basic site infrastructure to enable more commercial development to happen. Notable investments included:
  - (i) early feasibility work on Bank Top station that has since led to master plan and planning being approved and will lead to a £105m redevelopment of the station. To accommodate, the Cattle Mart site was demolished (utilising EGIF) and will be a temporary car park and compound whilst Bank Top works are ongoing, then will become a regeneration site in its own right. Other adjacent properties (needed for the redevelopment) have been acquired through negotiation with that funding reimbursed from TVCA funding for Bank Top.
  - (ii) Land acquisition and contribution to the road development was necessary to accommodate the 1.6m sq ft Amazon development, provide additional wider estate road improvements, and another investment was forward funding of key infrastructure at Ingenium Park 40 Ha's of economic land (investment recovered through Government grant).
  - (iii) Land acquisition of land at Feethams then paved the way for the speculative Feethams Office Development which will house the Darlington Economic Campus initially. At least five Government Departments will locate in Darlington.
  - (iv) Land acquisition at Neasham was an integral part of the moves to relocate the Cattle Mart to the A68 site and the Neasham site is currently under construction as a much needed 450 unit residential site with the council aiming to build 150 units for social rent.
- (h) If the above investments are approved at £5.470m there would potentially be £5.5m of unallocated capital receipts. However, as capital receipts are not guaranteed and potentially receipts may be needed to assist with the revenue MTFP in the future, along with the significant pressures being faced in the construction industry with regard to material and labour resource, it would prudent, and my advice, to hold onto these receipts for review in future years.

## **Corporate Schemes on the horizon**

- 76. In addition to the schemes noted above there are a number of schemes on the horizon which will be further explored during the coming year/s in regard to need, cost and funding opportunities. They are highlighted here as a potential marker for future investment.
  - (a) Electric charging infrastructure at the depot to facilitate a change to an all electric fleet.
  - (b) Replacement CCTV cameras
  - (c) A67 Victoria Road culvert repairs
  - (d) Town Centre capital works outside IGF.
  - (e) Changes to waste management e.g. food and green waste collections.
  - (f) Climate change potential COP26 issues.
  - (g) Potential Town Hall modernisation works following the agile pilot.

# **Government Funding**

77. Set out below are details of the levels of Government funding available for investment by the Council in 2022/23 and an outline of the proposed use of these funds.

	2022/23 £m
Children's Services	
School Condition Allocation	0.142
Transport	
Local Transport Plan	2.575
Other	
Disabled Facilities Grant	1.063
Total Capital Grant Available	3.780

## **School Condition Allocations**

78. The Local Authority now only receives school condition funding for Community Maintained Schools. Maintenance funding for Academies is available through other routes. This funding received by the Local Authority will be spent in line with key priorities identified with each maintained school through the locally agreed asset management planning (LAMPA) process, carried out each January. There are no strict spend deadlines for these small scale condition related projects which are prioritised and completed as funding becomes available.

# **Transport and Highways**

- 79. A new Local Transport Plan for the Tees Valley has been consulted upon and was endorsed by the Tees Valley Cabinet in 2021. This will help set the spending plans for the funding allocations from the Department for Transport and from the Devolution deal. The Integrated Transport Programme (ITP) of TVCAs Investment plan identifies £256.7m of investment over the next 10 years. There will be projects and initiatives delivered in Darlington from this fund. However, these will be subject to separate business cases and approval processes as they are developed.
- 80. The new Tees Valley Local Transport Plan has a number of accompanying documents that set the strategy and vision for different modes of transport. Each Local Authority is required to produce a Local Improvement Plan, which will effectively replace the local authority Local Transport Plan. These plans will cover local priorities and maintenance requirements. Prior to this year the Council received funding via TVCA that was based on needs formula. However, all of the funding has now been merged into the new City Region Sustainable Transport Settlement (CRSTS), which is a 5 year allocation of funding. The Tees Valley have been allocated £310m. However, the details of this allocation have yet to be confirmed including the governance on how this money will be prioritised and allocated. It is hoped funding will be no less than previous allocations under the formula approach that allocated £0.886m for the Integrated Block and £1.689m for the Highways Maintenance Block plus varying amounts for the Pothole action programme. The new CRSTS will provide the opportunity to deliver larger

improvement schemes in Darlington identified in the Tees Valley and Darlington transport plans and these will be dealt with on an individual project basis.

# **Disabled Facility Grants**

- 81. These grants are available if you are disabled and need to make changes to your home with examples being:
  - (a) Widen doors and install ramps,
  - (b) Improve access to rooms and facilities e.g. stair lifts or a downstairs bathroom,
  - (c) Provide a heating system suitable for your needs, and
  - (d) Adapt heating or lighting controls to make them easier to use.

# Housing

- 82. All Housing Capital schemes are funded fully from the Housing Revenue Account. The priorities identified through the Housing Business Plan will be funded from the estimated capital resources for 2022/23. Further detail is given in the Housing Revenue Account financial plan but in summary includes:-
  - (a) Adaptations and lifts £0.2m
  - (b) Heating Replacement £1.105m
  - (c) Structural Works £0.4m
  - (d) Lifeline Services £0.05m
  - (e) Repairs before Painting £0.06m
  - (f) Roofing and Repointing work £1m
  - (g) Garages £0.05m
  - (h) External Works £0.2m.
  - (i) Smoke Detectors £0.025m
  - (j) Pavements £0.032m
  - (k) Replacement Door Programme £0.450m
  - (I) Window Replacement £0.500m
  - (m) Internal planned maintenance (IPM) £1.91m
  - (n) Communal Works £0.15m
  - (o) Energy Efficiency Improvements £1m
  - (p) New Build housing £25.581m

# Consultation

83. This report will be published for consultation from 30 November 2021 to 21 January 2022.

# Conclusion

84. The current MTFP as agreed by Council remains deliverable but as previously acknowledged it is not without risk and challenges. Some risks previously identified have occurred and the recommendations within this report address the associated financial implications. The proposed MTFP includes the Risk Reserve at the same level as 2021 given the financial challenges we are still facing.

- 85. The Council still has the financial capacity to deliver a four-year balanced MTFP which puts it in a stronger position than many Councils, however this is based on a core offer service level with limited discretionary services and does rely on the use of balances across the four years. Despite significant pressures in social care, the proactive stance taken in growing the economy and our joint venture partnerships is working and assisting in minimising on-going committed annual spending.
- 86. Planning beyond the current MTFP is extremely difficult given the uncertainty around future funding and the review of the new Local Government Financial system (currently on hold but anticipated in 2023), and issues such as the impact of Brexit and Covid on the country's finances. Given the four-year balanced position, the proposed plan will allow time, post the funding reforms, to assess the impacts of the changing landscape and decide how to address the future financial position faced. Current planning suggests there will be a budget deficit of approximately £9.9m, however for the reason above, this will almost certainly change. At this stage it is not possible to know whether this will be a positive or negative position.
- 87. In summary, the Council continues to face significant financial challenges, however, due to the healthy reserves position which now play a crucial role in the budget strategy, the MTFP remains deliverable on the basis of what we know now and the following conditions economic growth, house building, no further pressures, fair funding reforms and a fair settlement, if this changes plans will need to be adjusted.
- 88. As the Council's Statutory Chief Financial Officer, the Group Director of Operations, must advise the Council on the robustness of the budget and adequacy of reserves. The budget presented to Members in this report has been based on the most accurate information available at this point in time, therefore the Director is confident that they are an accurate reflection of the Council's financial position. General Fund Reserves are adequate however the Council is carrying a financial risk over the lifetime of the plan which is difficult to forecast at present, in particular the implications and impacts of Covid-19, Brexit and the uncertainty around the local government funding reforms. It is essential that growing pressures in social care are addressed through transformation and implemented as the Council will be operating with minimum levels of balances to fund any future cost pressures.

7. Learners aged 19-24 who are unemployed and on a Traineeship

## Courses with no public subsidy

For learners aged 19 or above and where the learning aim is level 3 or above (except for exclusion above), learners will need to take out an Advanced Learning Loan, subject to funding availability. Further details can be found at: <a href="www.gov.uk/advanced-learning-loans">www.gov.uk/advanced-learning-loans</a>

Asylum Seekers – individuals will be assessed for eligibility in conjunction with ESFA guidance

Special Fees – some courses have special fees, cost on application

FE course – NVQ etc price on application

### The following courses are free:

Family Learning, Functional Skills, Study Programmes and courses which are funded through external projects

Additional Learning Support (ALS) is intended to enable disadvantaged learners to achieve their learning goal by providing funding, on top of programme funds, to help them overcome their barriers to learning. The funding is intended to be flexible and to help support learners who have a range of learning difficulties and/or disabilities

# ADULTS SCRUTINY COMMITTEE 21 DECEMBER 2021

#### ADULT SOCIAL CARE OUTCOMES FRAMEWORK

#### **SUMMARY REPORT**

#### **Purpose of the Report**

- 1. To inform members on the progress in determining a revised Adult Social Care Outcomes Framework (ASCOF).
- 2. To give an overview of Darlington's performance against ASCOF over the past three years.

#### **Summary**

- 3. ASCOF was first published in March 2011 and is reviewed annually to update the measures to reflect outcomes for adults and carers.
- 4. ASCOF measures how well care and support services achieve the outcomes that matter most to people. The ASCOF is used both locally and nationally to set priorities for care and support, measure progress and strengthen transparency and accountability. Performance against the ASCOF is published annually by NHS Digital. The Department of Health and Social Care also provides an annual report on the national picture.
- 5. Darlington continues to perform well against the ASCOF measures and in most cases performs better than the North East average.

#### Recommendations:

- 6. It is recommended that:
  - (a) Members note the content of this report.
  - (b) Members receive a further report when the revised framework is published.

#### **MAIN REPORT**

#### **Information and Analysis**

#### What is ASCOF?

7. The Adult Social Care Outcomes Framework (ASCOF) measures how well care and support services achieve the outcomes that matter most to people. The ASCOF is used both locally and nationally to set priorities for care and support, measure progress and strengthen transparency and accountability. Performance against the ASCOF is published annually by NHS Digital. The Department of Health and Social Care also provides an annual report on the national picture.

#### When it commenced in its current form

8. ASCOF was first published in March 2011 and is reviewed annually to update the measures to reflect outcomes for adults and carers.

#### **Drivers behind ASCOF**

9. ASCOF enables every local authority to see how they are performing in implementing local changes required as a result of the Care Act 2014. This includes supporting people to maintain their independence and their connections to the community, and ensuring they have control over the care they receive.

- 10. ASCOF is used both locally and nationally to set priorities for care and support, measure progress, strengthen transparency and accountability.
- 11. ASCOF provides comparable information on the outcomes and experiences of people who use adult social care, and carers.

#### The key roles of the ASCOF

- 12. The Adult Social Care Outcomes Framework includes a Handbook of Definitions. This document describes the key roles of the ASCOF as:
  - (a) Locally, the ASCOF provides councils with robust information that enables them to monitor the success of local interventions in improving outcomes, and to identify their priorities for making improvements. Local Authorities can also use ASCOF to inform outcome-based commissioning models.
  - (b) Locally, it is also a useful resource for Health and Wellbeing boards who can use the information to inform their strategic planning and leadership role for local commissioning.
  - (c) Locally, the ASCOF also strengthens accountability to local people. By fostering greater transparency on the outcomes delivered by care and support services, it enables local people to hold their council to account for the quality of the services that they provide, commission or arrange. Local authorities are also using the ASCOF to develop and publish local accounts to communicate directly with local communities on the outcomes that are being achieved, and their priorities for developing local services.
  - (d) Regionally, the data supports sector led improvement; bringing councils together to understand and benchmark their performance. This, in turn, stimulates discussions between councils on priorities for improvement, and promotes the sharing of learning and best practice.
  - (e) At the national level, the ASCOF demonstrates the performance of the adult social care system as a whole, and its success in delivering high-quality, personalised care and support. Meanwhile, the framework supports Ministers in discharging their accountability to the public and Parliament for the adult social care system, and continues to inform, and support, national policy development.

#### The revised Framework

- 13. In late 2019 the Association of Directors of Adult Social Services (ADASS) was commissioned by the Department of Health and Social Care (DHSC) to undertake a project to explore potential revisions to the existing Adult Social Care Outcomes Framework (ASCOF) to ensure that the framework offers a vehicle for providing the 'right narrative' for adult social care, and which better reflects how it is meeting changes in national and local policy and its statutory responsibilities defined in the Care Act (2014).
- 14. The Institute for Public Care (IPC) were appointed to undertake the first phase of this work on behalf of ADASS in 2019/20.

- 15. The output of this work was that two reports were produced the first on Reviewing the Current ASCOF, the second exploring the options for developing the right 'performance narrative' for Adult Social Care.
- 16. Two recommendations were included in the second report:
  - (a) To refresh the current framework with reference to the suggestions and comments gathered through the engagement and survey activity.
  - (b) Explore an alternative ASCOF
- 17. The second recommendation was taken forward as the preferred option by both ADASS and DHSC. As a result, a second part to the project was commissioned, with ADASS again partnering with IPC to deliver the work on behalf of DHSC. The focus of this phase was to further refine the initial tranche of indicators identified to form a revised ASCOF through a brief engagement process with ADASS and other key stakeholders.
- 18. The work addressed the overwhelming view from stakeholders that ASCOF is limited in what it can report about adult social care. It currently omits large parts of the day-to-day business of councils to meet their requirements under the Care Act 2014.
- 19. IPC suggested that DHSC (NHS Digital) collects a different set of data. The current returns for ASCOF and for Short and Long Term Services (SALT) would be scrapped in favour of a single return that captured the suggested data fields many of which are already within either ASCOF or SALT. This proposal just enables the data to be collected in a way that better supports the overall business of adult social care. This approach does not (at this stage) include financial activity. This is in part because of the way that the Local Government Association has already developed a tool (LGA Inform) to capture the financial data from Councils. It is proposed that the development of Option Two sits alongside "LGA Inform" to assist in telling the social care story.
- 20. Of particular note, is the suggestion that the current user and carers surveys are completely revised. Therefore, it is recommended that the current areas of the users and carers surveys are removed from any refreshed ASCOF.
- 21. There is no current indication of a publication date for the revised ASCOF, a further report will be presented to Members once this is received.

#### **Three Year ASCOF Performance**

- 22. Data against each of the ASCOF measures for the years 2018/19 to 2021 is contained in **Appendix A**, in summary this illustrates that Darlington performs:
  - (a) better than the North East average on 10 of the 13 indicators in 2020/21
  - (b) better than the England average on 12 of the 13 indicators in 2020/21
  - (c) consistently well over the three year period.

# Agenda Item 8

# ADULTS SCRUTINY COMMITTEE 21 DECEMBER 2021

#### **WORK PROGRAMME**

#### **SUMMARY REPORT**

#### **Purpose of the Report**

1. To consider the work programme items scheduled to be considered by this Scrutiny Committee during the 2021/22 Municipal Year and to consider any additional areas which Members would like to suggest should be included.

#### Summary

- 2. Members are requested to consider the attached draft work programme (**Appendix 1**) for the remainder of the Municipal Year, which has been prepared based on Officers recommendations and recommendations previously agreed by this Scrutiny Committee in the last Municipal Year.
- 3. Once the work programme has been approved by this Scrutiny Committee, any additional areas of work which Members wish to add to the agreed work programme will require the completion of a quad of aims in accordance with the previously approved procedure (Appendix 2).

#### Recommendations

- 4. It is recommended that Members note the current status of the Work Programme and consider any additional areas of work they would like to include.
- 5. Members' views are requested.

# Luke Swinhoe Assistant Director Law and Governance

#### **MAIN REPORT**

#### **Information and Analysis**

- The format of the proposed work programme has been reviewed to enable Members of this Scrutiny Committee to provide a rigorous and informed challenge to the areas for discussion.
- 7. The Council Plan sets the vision and strategic direction for the Council through to May 2023, with its overarching focus being 'Delivering success for Darlington'.
- 8. In approving the Council Plan, Members have agreed to a vision for Darlington which is a place where people want to live and businesses want to locate, where the economy continues to grow, where people are happy and proud of the borough and where everyone has the opportunity to maximise their potential.
- 9. The vision for the Adults Portfolio is 'a Borough where vulnerable adults can be helped and supported to maximise their independence and enjoy life to the full, and where care services are available to those in need'.

#### Forward Plan and Additional Items

- 10. Once the Work Programme has been agreed by this Scrutiny Committee, any Member seeking to add a new item to the work programme will need to complete a Quad of Aims.
- 11. A copy of the index of the Forward Plan has been attached at **Appendix 3** for information.
