18 PARTNERSHIP WORKING IN DARLINGTON

The Chief Executive submitted a report (previously circulated) which updated Members on a new partnership approach to delivering success for Darlington, agreed with partners, and sought agreement to amend the Council's Constitution with regard to its lead strategic documents.

The submitted report outlined a number of changes made to partnership working in

Darlington, and it was reported that partners had agreed that the Partnership Board would cease and be replaced by a Public Sector Executive Group and other partnership arrangements to be developed. It was also reported that, as a result of the change in circumstances, the Sustainable Community Strategy (SCS) would cease to be used as the strategic lead for the Borough, and that the lead would now be provided to partners by the Council Plan.

The submitted report advised that this changed approach was considered and approved by Cabinet on the 1 June 2021, subject to approval by Council of the constitutional changes required. Members were informed that the Communities and Local Services Scrutiny Committee had held a Special Meeting on 25 June 2021, after the recommendation of Cabinet was called in. Members were advised that after carefully considering all of the points raised, the majority view of the Communities and Local Services Scrutiny Committee was that it was satisfied with the decision Cabinet took on 1 June 2021.

RESOLVED - (a) That the new approach to partnership working in Darlington be noted.

(b) That the great contribution to Darlington made by current and past Members of the Darlington Partnership be recognised.

(c) That the change of emphasis with the Council Plan standing as the Council's lead strategy and agree that the Council ceases to have a separate Sustainable Community Strategy be approved.

(d) That authority be delegated to the Assistant Director, Law and Governance to make consequential amendments to the Constitution.

REASONS - (a) To refresh partnering in Darlington and continues to thrive and acknowledge the general work done.

19 SCRUTINY REPORTS - TO CONSIDER SCRUTINY OVERVIEW REPORTS:-

The Scrutiny Committee Chairs each submitted a report (previously circulated) on the main areas of work undertaken by their relevant Scrutiny Committee during the last cycle of Committee meetings.

20 NOTICE OF MOTION

(1) TO CONSIDER A MOTION SUBMITTED BY COUNCILLOR MCCOLLOM, AND SECONDED BY COUNCILLOR HASZELDINE

The following Motion was moved by Councillor McCollom, and seconded by Councillor Haszeldine:

This Council notes :-

- (1) The worrying official statistics published on 22nd June 2021 by the Department for Work and Pensions (DWP) that show that hundreds more families in the North East have seen their benefits capped since the start of the Covid-19 pandemic.
- (2) In Darlington, 184 families had their benefits capped during February 2021, which was a rise of 56% on the same period last year. Households impacted lose an average of £62 per week.
- (3) Most families affected by the cap cannot work to escape its effect— as many are looking after young children or cannot find affordable childcare they can combine with work and single parenting. In fact, of the households impacted this year in Darlington, 133 were headed by single parents.
- (4) Many households who have lost jobs to Covid-19 are now subject to the cap, even though in the pandemic it is much harder to find ways to replace their lost earnings and thereby become exempt.
- (5) The cap limits the total amount of benefits low-earning or non-working claimants can receive. Universal Credit claimants are exempt if they earn at least £617 per month (equivalent to working 16 hours per week on minimum wage).
- (6) Many families are earning their poverty as three quarters of children in poverty live in working families.

This Council resolves :-

- (1) That the leaders of all political parties represented on this council write a joint letter to our two MPs seeking their support for a review of the benefit cap policy aimed at people who could work but chose not to being applied to single parents with young children and those, through no fault of their own, have been impacted by the structural economic changes brought on by Covid.
- (2) That data is collected and made available to the Health and Housing Scrutiny Committee on a quarterly basis highlighting the number of applications (both successful and unsuccessful) for discretionary housing benefits from Darlington residents whose benefits have been capped.

The following amendment to the Motion was moved by Councillor Clarke, and seconded by Councillor Willis:

(a) Delete the following from the 'Council resolves' paragraphs:-

- (1) That the leaders of all political parties represented on this council write a joint letter to our two MPs seeking their support for a review of the benefit cap policy aimed at people who could work but chose not to being applied to single parents with young children and those, through no fault of their own, have been impacted by the structural economic changes brought on by Covid.

And replace with :-

(1) Undertake work to try and identify those households that have been affected by the benefit cap for targeted support, including :- A review of their benefits and wider access to support e.g. Free school meals, The Bread and Butter thing, Discretionary Housing Payments, Darlo millions, CAB and others to determine if they may be eligible for any benefits which exempt households from the cap and / or maximise wider support services to mitigate the impact of the cap.

Amendment Carried.

The Amendment became the Substantive Motion and was put to the meeting and carried.

Questions submitted on Notice from Members of the Public for the Ordinary Meeting of the Council – Thursday, 15th July 2021

Question No.	Questioner	Respondent	Question
1	Kate MAMMOLOTTI (Darlington Climate Action Group and Darlington Friends of the Earth)	Councillor KEIR	<p><i>“1. Currently, how much of Darlington Borough Council’s municipal waste actually gets recycled to be reused, eg. what percentage of glass actually get recycled into glass products? Similarly, what percentage of cardboard, paper, cans and plastic?</i></p> <p><i>2. There is much disparity between recycling rates throughout the country. What is Darlington Borough Council doing to improve on its current rate of 40% (In an article in the Northern Echo from March 2021 Cllr Keir said “the Authority’s overall recycling rate was 40% and that...we want to take that up to 45% by 2025”) to reach the level of more efficient councils? Figures from Letsrecycle.com/Defra show East Riding of Yorkshire, for example, achieving 63.3% and Three Rivers District Council 64.1%, among other higher achieving councils, in 2019/2020..</i></p> <p><i>3. Our council could learn a lot from and then implement more advanced techniques from higher achieving councils within our own country and from other countries. Does Cllr Keir acknowledge the direct link between local authorities that have long running contracts with incinerators and low recycling rates? (As demonstrated in the Dispatches TV programme The dirty truth about your rubbish, and presented on the UKWIN website UKWIN.org.uk). Is Darlington Borough Council currently doing any research in this area?</i></p> <p><i>4. Does Darlington Borough Council have plans to extend its recycling commitment and within what time frame?“</i></p>
2	Rachel NIXON	Councillor KEIR	<p><i>‘1. The Climate Change Committee say, in their Sixth Carbon Budget, that</i></p> <p><i>‘Our Balanced Net Zero Pathway sees waste sector emissions fall 75% from today’s levels to reach 7.8 MtCO2e/year by 2050. Around 80% of the abatement to 2035 is from waste prevention, increased recycling and banning biodegradable waste from landfill.’</i></p> <p><i>What is the Council's strategy to use its influence to nudge residents to reduce the waste that they create - that includes recyclable as well as food waste and other incinerator bound waste?</i></p>

			<i>2. When does the Council plan to collect food waste for anaerobic digestion as per recommendation by the Climate Change Committee?’</i>
3	Kendra ULLYART	Councillor KEIR	<i>‘How much glyphosate is currently used within the borough? In the US, a recent liability case saw 278 million dollars awarded to a worker who’s exposure to glyphosate resulted in cancer. What measures do DBC have in place to mitigate this risk to its employees? Given that the International Agency for Research on Cancer (IARC) has identified glyphosate is a probable carcinogen, why does the DBC continue to use it? Surely it’s use in playgrounds for example endangers the wellbeing of children? What Is the council plan to phase out the use of chemicals to control the natural world, given that the impact of such practices is contributing to the current ecological emergency?’</i>
