# Children's Social Care Performance & Practice Report

**Quarter 1 2024/25**

**Scrutiny**

# Scrutiny

## Quarter 1 2024-25 Performance Summary

**Referrals:** 123 referrals, involving 210 children were started in Q1 2024/25, a decrease on the 226 referrals in Q1 2023/24. 81.0% (170 / 210) of the children had their referral completed within 1 working day in Q1 2024/25, not meeting our 90% target, however the timescale is comparable to Q1 2023/24 (81.1%). 0.5% took over 3 working days to be completed in Q1 2024/25 which is outperforming our target of 5%.

**Re-Referrals:** In Q1 2024/25, 40 of the 210 children referred (19.1%), from 24 families, was a new referral within 12 months of their last referral starting. This is above target (18%), but a large reduction on the 86 children re-referred during Q1 2023/24. Due to the reduction in referrals being open to social care, it has resulted in a high percentage calculated, although the actual number is the lowest seen in a quarter since Q4 2021/22.

**Building Stronger Families:** At the end of Q1 2024/25, there were 205 families, 416 children open to the Building Stronger Families team. A further 60 families with 108 children were open to an external agency supporting the families.

282 children from 125 families closed to the Building Stronger Families team (BSF) in Q1 2024/25. 80.8% (101 / 125) of the families (225 children), made a degree of progress during this time resulting in either a step down to universal services or closure. This is a positive increase compared to the 71.7% of families that closed in Q1 2023/24 with a degree of progress.

**Missing:** The total number of missing episodes in Q1 2024/25 was 49 involving 31 individual children and young people. This is a reduction compared to Q1 2023/24 which saw 117 episodes of missing involving 58 individual children. The reduction is mainly seen in the missing of CiC young people.

In Q1 2024/25, 100% of all Return Home Interviews (RHI) (excluding children from other authorities) were offered, 81.6% of which were offered within 72 hours and 71.1% of the children engaged in their RHI.

**Children & Families Assessments:** 259 children had a C&F assessment completed in Q1 2024/25. This is below the 418 assessments started in Q1 2023/24, but still nearly double the number started in Q1 2021/22 (135). 89.6% of C&F assessments were completed with the 45 day timescale. This is a positive increase to previous years and evidence of targeted work and support.

**Section 47 Enquiries:** 66 section 47 enquires were started in Q1 2024/25, involving 120 individual children, 10 of which were already on an open Child Protection (CP) plan. This a reduction on the 111 section 47 enquiries started during Q1 2023/24.

**Child Protection Conference timeliness:** 73.5% of Initial Child Protection Conferences (ICPC) were held within 15 working days from the strategy meeting / section 47 being initiated, excluding children who were transferred-in conference, during Q1 2024/25.

We work with partner agencies who need notice so that they can prepare reports and arrange for someone to attend the meeting. The decision that there is a need for an Initial Child Protection Conference is one that needs to be made within a short timeframe. Generally, this means that the decision needs to be made in less than 10 working days.

When dealing with complex situations this can be a challenge for the social worker and their managers. Performance has dropped in recent times due to late notification by the Social Work Teams that a Child Protection Conference is needed. This is being continually monitored through Performance Clinics. This measure is below the target of 95%.

**Child Protection Plans:** 115 children were subject to a Child Protection plan (CP) as at the end of June 2024 with a rate of 51.7 per 10,000 population with a CP plan. Of the 30 children who became subject to a CP plan in 2024/25, 7 became subject to a CP plan for a second or subsequent time within 2 years of the previous plan ending (23.3%), and 9 children (30.0%) had been subject to a CP plan for a second time ever. The target for this measure is 6%, but due to the lower numbers starting a plan, this has resulted in a very high percentage.

**Child Protection Statutory visits:** 77.5% (666 / 859) of Child Protection statutory visits were completed within 10 working days in Q1 2024/25 and 94.9% (815 / 859) of the visits were completed within 15 working days. Although below target (90%), this is an improvement on Q1 2023/24 where 70.1% of visits occurred within timescale.

**Children in Care:** 291 children were in care as at June 2024, 19 (6.5%) of which are unaccompanied asylum-seekers. 10 children from Darlington came into care in Q1 2024/25 from 9 families. This is a significant decrease when compared with the 46 children who came into care in Q1 2023/24. 1 young person came into care after accepted by the Home Office as UASC (Unaccompanied Asylum-Seeking Child). 18 children and young people, from 18 families ceased to be in care in Q1 2024/25.

**Children in Care Reviews:** 100.0% of Children in Care (CiC) were allocated to a qualified social worker, 80.0% of the initial CiC reviews and 81.2% of subsequent review were carried out in timescale.

At the end of March 2024, to enable better quality reviews to be undertaken, the decision was taken by the Senior Leadership Team that if the Social Worker's report was not completed for the Child's Looked After Review, then the meeting would be rearranged. In Quarter 1, this decision has impacted on the number of reviews held within the required timescale (both initial and subsequent reviews). The decision was taken due to reviews being held without full information being available. This is being monitored through Performance Clinics.

**Children in Care Statutory visits:** 84.6% (695 / 822) of statutory visits for Children in Care (CiC) were completed in timescale in Q1 2024/25. This is an improved performance compared to Q1 2023/24 (81.8%) but remains below target of 90%.

**Children in Care Placements:** 8.7% of our CiC, as of June 2024, have had 3 or more placements within the previous 12 months. This is below target (10%), an improvement as we have remained above target for some time. Currently, 59.0% of our Children in Care aged under 16 (who have been looked after for at least 2.5 years) have been in their current placement continuously for at least 2 years. This is below our 68% target and due to some safeguarding placement moves taking place in June, it has taken us below 60% which is the lowest performance in over a year.

9.3% of our CiC have been placed 20 or more miles away from home as of June 2024, positively the lowest number of children in over a year. This relates to young people who have been placed in residential care due to their disability / placed with family / or placed for adoption, and this provision is not available within 20 miles.

**Initial Health Assessments:** 70% of IHA's completed in Q1 2024/25 were completed within the required timescale of 5 days and 88.9% of those children received a health assessment within 20 days.

**Health and Dental Reviews:** 72.5% of children due a review health assessment by June 2024 have had one completed and 26% of the children in care have an up-to-date health check. Currently only 2.9% of the children and young people are refusing to attend a health review. 26.5% of children due a dental health assessment by June 2024 have had one completed. Currently 5.9% of the children and young people are refusing to attend a dental check-up. The young people are continually reminded of the benefits of having a check-up and encouraged to take part.

**Care Leavers:** 93.8% of our care leavers aged 19-21 and 96.5% of our care leavers aged 22-25 were in suitable accommodation at the end of June 2024. 12.5% of the young people, aged 19-21, were engaging in education including studies beyond A level, and 70.3% young people were in training or employment (34.4% in full time and 35.9% in part time). 5.3% young people, aged 22-25, were engaging in education (all of which are in studies beyond A level) and 77.2% young people were in training or employment (22.8% in full time and 54.4% in part time).

## REFERRALS: TIMELINESS

**DEFINITION** Percentage of referrals completed within 1 working day and over 3 working days. Referrals completed within 1 working day indicates that decisions regarding the services required are made in a timely manner to minimise drift and delay and to ensure that children are safe.

		CSC 022	CSC 026
		Monthly % of referrals completed within 1 working day.	Monthly % of referrals completed in over 3 working days.

	2024/25	81.0	0.5

## REFERRALS: RE-REFERRALS

<b>DEFINITION</b>	Percentage of re-referrals that are received within 12 months of a previous referral (based on referral start dates and in line with DfE definition). A re-referral to Children's Social Care could be an indication that the previous referral was inappropriately closed down without addressing the initial concerns or issues.

**BUILDING STRONGER FAMILIES: OPEN EPISODES**

**DEFINITION** The number of children and families that have an open episode with the Building Stronger Families (BSF) team at the end of each reporting month. Also reported is the number of children and families that have an open episode with an external agency. The proportion of children open to BSF is then calculated using the total cohort and displayed as a percentage.

		Open to BSF at month end		Open to an external agency at month end		% of children open to BSF
		Children	Families	Children	Families	
In Month Performance	Apr-24	418	201	128	65	76.6%

2024/25		416	205	108	60	79.4%

## EARLY HELP ASSESSMENTS: STARTED

**DEFINITION** The number of individual Early Help Assessments (EHA) started in month and year to date, including those initiated by external agencies. The start date of the EHA is taken from the form created date in Liquid Logic and the start date of the external EHA is taken from the contact date when the agency informed us of the EHA.

		CSC 002	CSC 001		
		Total number of individual EHA's started in month (inc. external)	Number and percentage of the EHA's initiated by external agencies per month	Number of individual EHA's started; year to date (inc. external)	
In Month Performance	Target			TBC	
	Apr-24	106	15	14.2%	106

	2024/25	303	44	14.5%	303

CSC 001: Number of individual EHA's started; year to date (inc. external)

CSC 002: Total number of individual EHA's started in month (inc. external)

% of the Early Help Assessments initiated by external agencies per month

**MISSING: EPISODES**

<b>DEFINITION</b>	The number of episodes of children going missing in Darlington, including Children in Care, Children in Care with another authority and children who are not currently open to Social Care. The percentage of Return Home Interviews (RHI) completed within 72 hours and the level of engagement by the child. The number of episodes missing is cumulated to give a year to date figure but the children are only counted once for the year to date total.
-------------------	---

		CSC 215		CSC 246			
		Total number of missing episodes and children involved in month		Missing - Children in Care with DBC		Of which are in a placement more than 20 miles from home

2022/23		1,461	1,461	645.5
2023/24		1,554	1,554	698.3
2024/25		259	259	116.4

CSC 037: Monthly number of C&F assessments completed

CSC 035: Rate of C&F assessments completed per 10,000 of the 0-17 population.

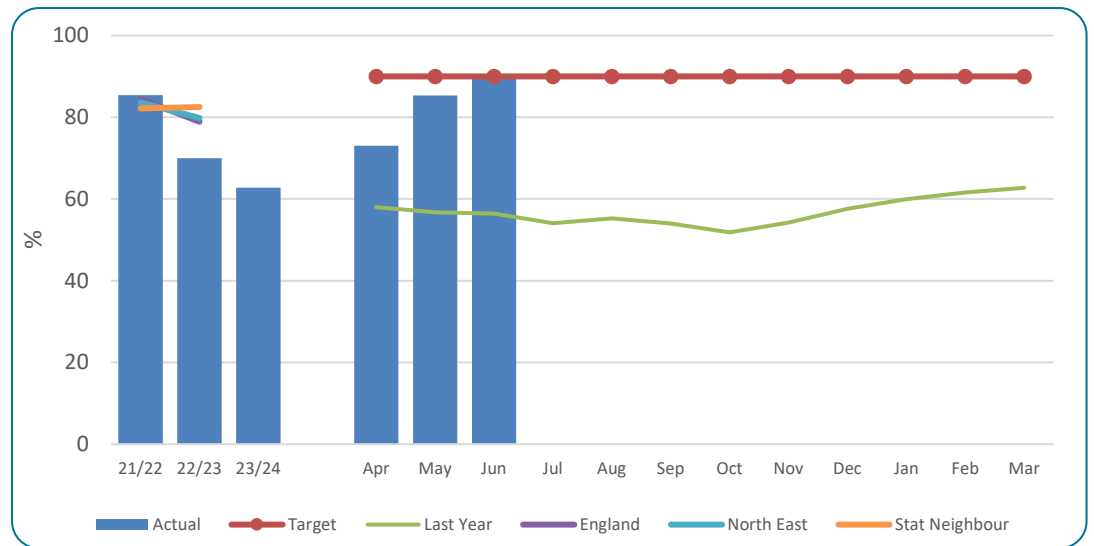

## ASSESSMENTS: TIMELINESS

<b>DEFINITION</b>	<p>Of those assessments completed in a period, the percentage completed within 45 working days. Day zero is the first working day on or after the start date of the referral, or strategy discussion decided to initiate S47 enquiries, or where new information indicates that an assessment should be undertaken. The end date is the first working day on or after the recorded date the Team Manager closes the single assessment.</p> <p>A process indicator as a proxy measure for improved child safety and how quickly services can respond when a child is thought to be at risk of serious harm. Local authorities should investigate and address concerns in a timely and efficient way.</p>
-------------------	---

		CSC 038	CSC 040
		% C&F Assessments completed within 45 working days (year to date)	Monthly % completed within 45 working days

2024/25		66	120	10	53.9

Number of children; showing the total including and excluding those already on CPP

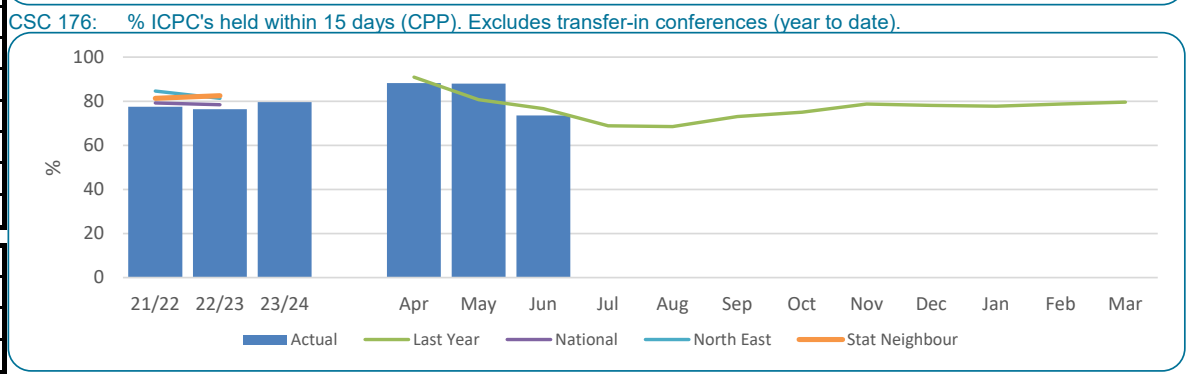

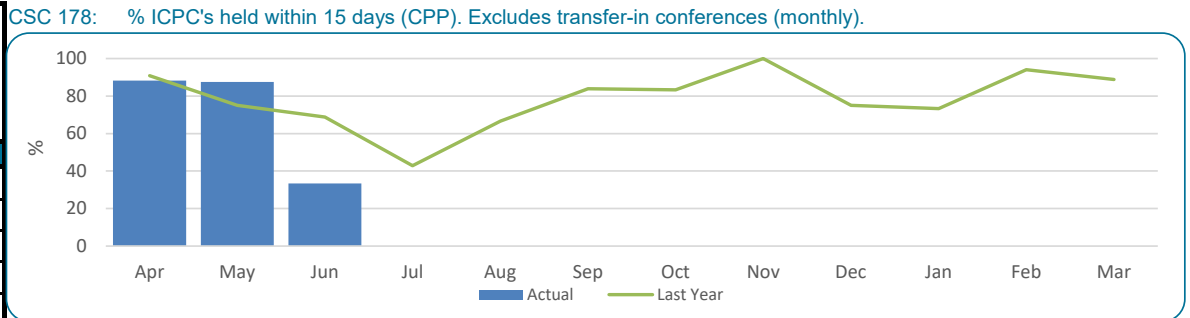

Rate of section 47 enquiries started per 10,000 of the 0-17 population (inc. children already on CPP)

## INITIAL CHILD PROTECTION CONFERENCES: TIMELINESS

**DEFINITION** Of those Initial Child Protection Conference (ICPC) held within the period (excluding transfer ins), the percentage recorded in the Safeguarding Unit workbook where Child Protection strategy meeting / section 47 enquiry to ICPC are within 15 days (CPP). This provides an indication of how quickly the safety of the child is considered by a multi-agency meeting.

		CSC 178		CSC 176	
		% ICPC's held within 15 days (CPP). Excludes transfer-in conferences (monthly).		% ICPC's held within 15 days (CPP). Excludes transfer-in conferences (year to date).	
In Month Performance	Target				95%

	2023/24	146	65.6
	2024/25	115	51.7

## CHILD PROTECTION PLANS: ALLOCATION & REVIEWS

**DEFINITION** Reviews are a key element in delivering CP Plans and effective reviews should ensure the provision of good quality interventions. This indicator is a proxy for the measurement of effectiveness of the interventions provided to children subject to a CP plan. "Working Together to Safeguard Children" guidance requires that the first review should be within 3 months of their ICPC and thereafter at intervals of no more than 6 months.

		CSC 183	CSC 191a	
		% of children with a CP plan allocated to a qualified social worker	CP plan review meetings held in timescale during the month	% of CP plans reviewed within the timescales.
In Month Performance	Target	100		100
	Apr-24	100.0	10 / 11	90.9

	2023/24	100.0	193 / 196	98.5
	2024/25	100.0	45 / 46	97.8

**CHILD PROTECTION PLAN: TIME PERIODS**

**DEFINITION** Percentage of children ceasing to be subject to a Child Protection Plan who had been subject to a Plan for 2 or more years, and percentage of children becoming subject to a Child Protection Plan for the 2nd or subsequent time within a) 2 years of a previous plan, and b) with a previous plan at any point. These indicators reflect the underlying principle that professionals should be working towards specified outcomes which, if implemented effectively, should lead to all children not needing to be the subject of a Child Protection Plan within a maximum of two years, or becoming subject of a Child Protection Plan for a second or subsequent time.

		CSC 186		CSC 188			
		% children ceasing a CP plan who had been subject to CP for 2 or more years (Cumulative)		% of children becoming subject to a CP plan for a 2nd or subsequent time within 2 years of a previous plan ending (Cumulative)		% of children becoming subject to a CP plan for a 2nd or subsequent time ever (Cumulative)	
<b>In Month Performance</b>	<b>Target</b>		<b>5%</b>		<b>6%</b>

	2024/25	11	11	1

Monthly number of children coming into care

Total number of children coming into care within the year

## CHILDREN IN CARE: CEASING CARE

### DEFINITION

Number of children ceasing to be a Child in Care during each month and year to date and their destination when they ceased being in care. This could be due to returning home to parent or other person with no PR (planned and unplanned), having a Special Guardianship Order (SGO) / Child Arrangement Order (CAO) granted by the courts to a carer, adoption or turning 18 years old and becoming a care leaver and supported by a personal advisor. Other reasons why a child could cease care could be due to receiving a custodial sentence or moving out of the area and transferring to a different local authority.

CSC 212: Monthly number of children ceasing care

Cumulative reason for children ceasing care

## CHILDREN IN CARE: REVIEWS

**DEFINITION** The purpose of the review is to consider the plan for the child's welfare, to monitor the progress of the plan and amend it as necessary in light of changed information and circumstances. The statutory intervals are within 20 working days of placement, then within 3 months and 6 monthly thereafter, but reviews may be rescheduled or held inside these intervals if there are significant changes to the child's care plan..Percentage of the current Children in Care (CIC) who have had their initial review, and all of their subsequent reviews completed within the required timescales.

	Target	CSC 219		CSC 218		CSC 220	
		% CiC initial reviews completed within timescales (as at month end)		% CiC reviews had been completed within required timescales (as at month end)		% CiC subsequent reviews completed within timescales

	2023/24		81.0
	2024/25	86.6	84.6

## CHILDREN IN CARE: PLACEMENTS

**DEFINITION** Of those Children in Care (CiC) at the point in time (excluding series of short-term placements), the percentage that had 3 or more separate placements in the previous 12 months; who (under the age of 16 years) had been in their current placement for 2 or more years. and who were placed more than 20 miles away from their home address. Proper assessment and an adequate choice of placements to meet the varied needs of different children are essential if appropriate stable placements are to be made. Inappropriate placements often break down and lead to frequent moves. Nevertheless, the circumstances of some individual children will require 3 or more separate placements during a year if they and others are to be kept safe.

		CSC 228		CSC 229		CSC 230	
		% CiC with 3 or more placements moves during last 12 months		% CiC (<16yrs) who have been in their current placement for 2 or more years		% CiC placed 20 miles or more away from home

2024/25		11.0	5.9	26.5

## CARE LEAVERS

**DEFINITION** Former relevant care leavers split to show the young people who, at 31st March, will be aged 19-21 and those who will be aged 22-25. The percentage who were in suitable accommodation at their most recent contact, and the percentage who were not in employment, education or training at their most recent contact. This measures accommodation and employment outcomes for young people formerly in care - a key group at risk of social exclusion. It is intended to increase the proportion of former care leavers who are in suitable accommodation and employment, education or training.

		CSC 286 19-21 year olds		CSC 294 22-25 year olds	
		% Care leavers in suitable accommodation	% Care leavers NEET	% Care leavers in suitable accommodation	% Care leavers NEET
