National Planning policy Framework Chapter 16 – Conserving and enhancing the historic environment.

Parish Council – Object to the proposals but have raised issues primarily related to planning criteria which are considered under 18/00577/FUL.

PLANNING ISSUES

The main issues to be considered in the determination of this application are: -

- Impact of the alterations on the character of the Listed Building.

Hunters End Cottage is single-storey, has a 3-bay ground floor range of 12-pane sashes with painted stone lintels and projecting sills. The pitched roof is in refurbished red pantiles with a tall central ridge stack. It has previously been extended and altered however prior to being purchased by the applicant, to include a rear extension, major internal works and major alterations to the rear slope of the roof scape allowing it to be converted to a separate residential use.

The Heritage Statement describes the proposals as follows :

Contained within the single storey footprint of the northern half of the building

- 2no. Additional guest bedrooms, bring the total number to 5 double en suite rooms,
- A glass fronted wine cellar / room, providing a customer view into the space,
- Improved customer WC's,
- Staff changing and WC facilities.
- Conversion of the existing garage to external store, with a new personnel door added to the South Elevation of the garage.

The majority of the works is contained internally within the cottage, removing studwork and modern walls within the extension.

Minor works are proposed to the elevations of the cottage, to include;

- Replacing some of the existing glazing to opaque (within modern windows,)
- Removal of modern UPVC panelled side door, blocking of the opening using reclaimed stone work recessed panel.
- AC grills to be installed within the rear roof slope, to accommodate AC mounted within the roof void to provide temperature controlled wine storage.
- Extractor outlets within pantiles from proposed en suite bathrooms to new guest bedrooms.

The Conservation Officer has studied the proposed alterations and has concluded that in view of the amount of alterations already carried out to the properties, the current proposals do not constitute work that will have a detrimental impact on the character of the Listed Building.

CONCLUSION

It is proposed to bring back into public house use an attached single storey building currently used for residential purposes since its conversion in 2003. The additional two bedrooms will provide accommodation for customers who are already dining on the premises – they will not be available as a “bed and breakfast” facility. The alterations to achieve this are mainly internal, in addition to considerable previous alterations.

In view of the above, it is considered that the proposals will not harm the character of the Listed Building and can be approved.
