**INTERNAL AUDIT
AUDIT COMMITTEE UPDATE REPORT**

2019/20

1 AUDIT PROGRESS

- 1.1 The plan, approved on 19 June 2019, was based on an audit assessment of risk which uses a number of factors to determine the likelihood of issues occurring including an understanding of the full scope of systems in operation, major change, concerns/external interest and results of previous audit work. It then assesses the impact any issues may have on the council's strategic objectives, reputation, financial plans, assets and also the potential impact on individuals and/or the environment.

2 AUDIT OUTPUT

Engagement Opinions

2.1 For each audit carried out Internal Audit provides an overall conclusion as to whether a sound system of internal control is being maintained. Each opinion is either “Full”, “Substantial”, “Moderate”, “Limited”, or “No” assurance depending on the conclusions reached and the evidence to support those conclusions. “Full” and “substantial” assurance normally indicates that the area under review has a reliable system of internal control.

2.2 These individual opinions are summarised below:-

Opinion	Definition	No.	%
Full Assurance	A sound system of internal controls is currently being applied which will ensure the system achieves its objectives. Whilst not essential there may still be scope for these controls to be enhanced in some areas.	0	0
Substantial Assurance	Overall there is a sound system of internal controls that are operating effectively. The system should achieve its objectives but there are areas where internal controls need to be improved.	0	0
Moderate Assurance	A reasonably sound system of internal controls is being applied, however, there are weaknesses which may put some of the system objectives at risk.	0	0
Limited Assurance	There is either a limited system of internal controls being applied, or there are significant weaknesses in the controls in place, which are posing a substantial risk to the achievement of system objectives.	0	0
No Assurance	The system of internal controls in place is failing and system objectives are not being met. Urgent management attention is required.	0	0
N/A	This classification covers audit work within a small part of a system. Providing an opinion on this work would misrepresent the system as a whole.	0	0
Total		0	

2.3 An analysis of the recommendations supporting these opinions by priority is shown below:-

Priority	Definition	No.	%
Critical	Actions that must be taken immediately to manage significant risks that are likely to prevent the Authority achieving one or more of its corporate objectives.	0	0
High	Actions that should be taken as a matter of priority due to the issues identified posing a substantial risk to the achievement of service/system objectives.	0	0
Medium	Required actions to reduce the risk of systems failing to achieve their objectives.	0	0
Low	Beneficial to the improvement of internal controls, which will support the achievement of objectives.	0	0
Total		0
