#### 1. Guidance

#### Overview

#### Note on entering information into this template

Inrougnout the template, cells which are open for input have a yellow packground and those that are pre-populated have a grey background, as below:

#### Data needs inputting in the cell

Pre-populated cells

#### Note on viewing the sheets optimally

For a more optimal view each of the sheets and in particular the drop down lists clearly on screen, please change the zoom level between 90% - 100%. Most drop downs are also available to view as lists within the relevant sheet or in the

The details of each sheet within the template are outlined below.

#### **Checklist** (click to go to Checklist, included in the Cover sheet)

- 1. This section helps identify the data fields that have not been completed. All fields that appear as incomplete should be complete before sending to the Better Care Support Team.
- 2. It is sectioned out by sheet name and contains the description of the information required, cell reference for the question and the 'checker' column which updates automatically as questions within each sheet are completed.
- 3. The checker column will appear 'Red' and contain the word 'No' if the information has not been completed. Clicking on the corresponding 'Cell Reference' column will link to the incomplete cell for completion. Once completed the checker column will change to 'Green' and contain the word 'Yes'
- 4. The 'sheet completed' cell will update when all 'checker' values for the sheet are green containing the word 'Yes'.
- 5. Once the checker column contains all cells marked 'Yes' the 'Incomplete Template' cell (below the title) will change to
- 6. Please ensure that all boxes on the checklist are green before submission.

#### **2. Cover** (click to go to sheet)

- 1. The cover sheet provides essential information on the area for which the template is being completed, contacts and
- 2. Question completion tracks the number of questions that have been completed; when all the questions in each section of the template have been completed the cell will turn green. Only when all cells are green should the template be sent to england.bettercaresupport@nhs.net
- 3. Please note that in line with fair processing of personal data we collect email addresses to communicate with key individuals from the local areas for various purposes relating to the delivery of the BCF plans including plan development, assurance, approval and provision of support.

We remove these addresses from the supplied templates when they are collated and delete them when they are no longer needed.

#### **4. Strategic Narrative** (click to go to sheet)

This section of the template should set out the agreed approach locally to integration of health & social care. The narratives should focus on updating existing plans, and changes since integration plans were set out until 2020 rather than reiterating them and can be short. Word limits have been applied to each section and these are indicated on the

- 1. Approach to integrating care around the person. This should set out your approach to integrating health and social care around the people, particularly those with long term health and care needs. This should highlight developments 2 i. Approach to integrating services at HWB level (including any arrangements at neighbourhood level where relevant). This should set out the agreed approach and services that will be commissioned through the BCF. Where schemes are new or approaches locally have changed, you should set out a short rationale.
- 2 ii. DFG and wider services. This should describe your approach to integration and joint commissioning/delivery with wider services. In all cases this should include housing, and a short narrative on use of the DFG to support people with care needs to remain independent through adaptations or other capital expenditure on their homes. This should include
- 3. How your BCF plan and other local plans align with the wider system and support integrated approaches. Examples may include the read across to the STP (Sustainability Transformation Partnerships) or ICS (Integrated Care Systems) plan(s) for your area and any other relevant strategies.

You can attach (in the e-mail) visuals and illustrations to aid understanding if this will assist assurers in understanding **5. Income** (click to go to sheet)

- 1. This sheet should be used to specify all funding contributions to the Health and Wellbeing Board's Better Care Fund (BCF) plan and pooled budget for 2019/20. On selected the HWB from the Cover page, this sheet will be pre-populated with the minimum CCG contributions to the BCF, DFG (Disabled Facilities Grant), iBCF (improved Better Care Fund) and Winter Pressures allocations to be pooled within the BCF. These cannot be edited.
- 2. Please select whether any additional contributions to the BCF pool are being made from Local Authorities or the CCGs and as applicable enter the amounts in the fields highlighted in 'yellow'. These will appear as funding sources when planning expenditure. The fields for Additional contributions can be utilised to include any relevant carry-overs from the
- 3. Please use the comment boxes alongside to add any specific detail around this additional contribution including any relevant carry-overs assigned from previous years. All allocations are rounded to the nearest pound.
- 4. For any questions regarding the BCF funding allocations, please contact England.bettercaresupport@nhs.net

### 6. Expenditure (click to go to sheet)

This sheet should be used to set out the schemes that constitute the BCF plan for the HWB including the planned expenditure and the attributes to describe the scheme. This information is then aggregated and utilised to analyse the BCF plans nationally and sets the basis for future reporting and to particularly demonstrate that National Condition 2 The table is set out to capture a range of information about how schemes are being funded and the types of services they are providing. There may be scenarios when several lines need to be completed in order to fully describe a single scheme or where a scheme is funded by multiple funding streams (eg: iBCF and CCG minimum). In this case please use a consistent scheme ID for each line to ensure integrity of aggregating and analysing schemes.

On this sheet please enter the following information:

- 1. Scheme ID:
- This field only permits numbers. Please enter a number to represent the Scheme ID for the scheme being entered. Please enter the same Scheme ID in this column for any schemes that are described across multiple rows.
- 2. Scheme Name:
- This is a free field to aid identification during the planning process. Please use the scheme name consistently if the scheme is described across multiple lines in line with the scheme ID described above.
- 3. Brief Description of Scheme
- This is free text field to include a brief headline description of the scheme being planned.
- 4. Scheme Type and Sub Type:
- Please select the Scheme Type from the drop-down list that best represents the type of scheme being planned. A description of each scheme is available at the end of the table (follow the link to the description section at the top of the main expenditure table).
- Where the Scheme Types has further options to choose from, the Sub Type column alongside will be editable and turn "yellow". Please select the Sub Type from the drop down list that best describes the scheme being planned.
- Please note that the drop down list has a scroll bar to scroll through the list and all the options may not appear in one view.
- If the scheme is not adequately described by the available options, please choose 'Other' and add a free field description for the scheme type in the column alongside.
- 5. Planned Outputs
- The BCF Planning requirements document requires areas to set out planned outputs for certain scheme types (those which lend themselves to delivery of discrete units of delivery) to help to better understand and account for the activity funded through the BCF.
- The Planned Outputs fields will only be editable if one of the relevant scheme types is selected. Please select a relevant 6. Metric Impact
- This field is collecting information on the metrics that a chem will impact on (rather than the actual planned impact on the metric)
- For the schemes being planned please select from the drop-down options of 'High-Medium-Low-n/a' to provide an indicative level of impact on the four BCF metrics. Where the scheme impacts multiple metrics, this can be expressed by selecting the appropriate level from the drop down for each of the metrics. For example, a discharge to assess scheme might have a medium impact on Delayed Transfers of Care and permanent admissions to residential care. Where the 7. Area of Spend:
- Please select the area of spend from the drop-down list by considering the area of the health and social system which is most supported by investing in the scheme.
- Please note that where 'Social Care' is selected and the source of funding is "CCG minimum" then the planned spend would count towards National Condition 2.
- If the scheme is not adequately described by the available options, please choose 'Other' and add a free field description for the scheme type in the column alongside.
- We encourage areas to try to use the standard scheme types where possible.
- 8. Commissioner:
- Identify the commissioning entity for the scheme based on who commissions the scheme from the provider. If there is a single commissioner, please select the option from the drop-down list.
- Please note this field is utilised in the calculations for meeting National Condition 3.
- If the scheme is commissioned jointly, please select 'Joint'. Please estimate the proportion of the scheme being commissioned by the local authority and CCG/NHS and enter the respective percentages on the two columns alongside. 9. Provider:
- Please select the 'Provider' commissioned to provide the scheme from the drop-down list.
- If the scheme is being provided by multiple providers, please split the scheme across multiple lines.

#### 10. Source of Funding:

- Based on the funding sources for the BCF pool for the HWB, please select the source of funding for the scheme from the drop-down list
- If the scheme is funding across multiple sources of funding, please split the scheme across multiple lines, reflecting the 11. Expenditure (£) 2019/20:
- Please enter the planned spend for the scheme (or the scheme line, if the scheme is expressed across multiple lines)
- 12. New/Existing Scheme
- Please indicate whether the planned scheme is a new scheme for this year or an existing scheme being carried forward.

This is the only detailed information on BCF schemes being collected centrally for 2019/20 and will inform the understanding of planned spend for the iBCF and Winter Funding grants.

#### 7. HICM (click to go to sheet)

National condition four of the BCF requires that areas continue to make progress in implementing the High Impact Change model for managing transfers of care and continue to work towards the centrally set expectations for reducing DToC. In the planning template, you should provide:

- An assessment of your current level of implementation against each of the 8 elements of the model from a drop-
- Your planned level of implementation by the end March 2020 again from a drop-down list

A narrative that sets out the approach to implementing the model further. The Narrative section in the HICM tab sets out further

#### **8. Metrics** (click to go to sheet)

This sheet should be used to set out the Health and Wellbeing Board's performance plans for each of the Better Care Fund metrics in 2019/20. The BCF requires plans to be agreed for the four metrics. This should build on planned and 1. Non-Elective Admissions (NEA) metric planning:

- BCF plans as in previous years mirror the latest CCG Operating Plans for the NEA metric. Therefore, this metric is not collected via this template.
- 2. Residential Admissions (RES) planning:
- This section requires inputting the information for the numerator of the measure.
- Please enter the planned number of council-supported older people (aged 65 and over) whose long-term support needs will be met by a change of setting to residential and nursing care during the year (excluding transfers between residential and nursing care) for the Residential Admissions numerator measure.
- The prepopulated denominator of the measure is the size of the older people population in the area (aged 65 and over) taken from ONS subnational population projections.
- The annual rate is then calculated and populated based on the entered information.
- Please include a brief narrative associated with this metric plan
- 3. Reablement (REA) planning:
- This section requires inputting the information for the numerator and denominator of the measure.
- Please enter the planned denominator figure, which is the planned number of older people discharged from hospital to their own home for rehabilitation (or from hospital to a residential or nursing care home or extra care housing for rehabilitation, with a clear intention that they will move on/back to their own home).
- Please then enter the planned numerator figure, which is the planned number of older people discharged from hospital to their own home for rehabilitation (from within the denominator) that will still be at home 91 days after discharge.
- The annual proportion (%) Reablement measure will then be calculated and populated based on this information.
- Please include a brief narrative associated with this metric plan
- Delayed Transfers of Care (DToC) planning:
- The expectations for this metric from 2018/19 are retained for 2019/20 and these are prepopulated.
- Please include a brief narrative associated with this metric plan.
- This narrative should include details of the plan, agreed between the local authority and the CCG for using the Winter Pressures grant to manage pressures on the system over Winter.

#### **9. Planning Requirements** (click to go to sheet)

This sheet requires the Health & Wellbeing Board to confirm whether the National Conditions and other Planning Requirements detailed in the BCF Policy Framework and the BCF Requirements document are met. Please refer to the BCF Policy Framework and BCF Planning Requirements documents for 2019/20 for further details.

The Key Lines of Enquiry (KLOE) underpinning the Planning Requirements are also provided for reference as they will be utilised to assure plans by the regional assurance panel.

- 1. For each Planning Requirement please select 'Yes' or 'No' to confirm whether the requirement is met for the BCF Plan.
- 2. Where the confirmation selected is 'No', please use the comments boxes to include the actions in place towards meeting the requirement and the target timeframes.

#### 10. CCG-HWB Mapping (click to go to sheet)

The final sheet provides details of the CCG - HWB mapping used to calculate contributions to Health and Wellbeing Board level non-elective activity figures.

## Please Note:

- You are reminded that much of the data in this template, to which you have privileged access, is management information only and is not in the public domain. It is not to be shared more widely than is necessary to complete the return.
- Please prevent inappropriate use by treating this information as restricted, refrain from passing information on to others and use it only for the purposes for which it is provided. Any accidental or wrongful release should be reported immediately and may lead to an inquiry. Wrongful release includes indications of the content, including such descriptions as "favourable" or "unfavourable".
- Please note that national data for plans is intended for release in aggregate form once plans have been assured, agreed and baselined as per the due process outlined in the BCF Planning Requirements for 2019/20.
- This template is password protected to ensure data integrity and accurate aggregation of collected information. A resubmission may be required if this is breached.

#### 4. Strategic Narrative

Selected Health and Wellbeing Board: Darlington

## Please outline your approach towards integration of health & social care:

When providing your responses to the below sections, please highlight any learning from the previous planning round (2017-2019) and cover any priorities for reducing health inequalities under the Equality Act 2010.

23

Please note that there are 4 responses required below, for questions: A), B(i), B(ii) and C)

Link to B) (i)

Link to B) (ii)

Link to C)

#### A) Person-centred outcomes

Your approach to integrating care around the person, this may include (but is not limited to):

- Prevention and self-care

- Promoting choice and independence

Remaining Word Limit:

The vision is that by 2020/21 everyone is able to live at home longer, be healthier and get the right support services where required, whether this be provided by health and / or social care. Focus will be on integrated health and social care, primary prevention, early diagnosis and intervention, and supported self-management with the aim of closing the health and wellbeing gap and reducing health inequalities as well as driving transformation to close the care and quality gap.

Demographic changes mean that there will be an increase in demand on both Health and Social Care in future years. We need to support the reduction in this demand by putting in place a number of strategies and schemes focused on early invention and prevention, supporting people to stay in their own homes appropriate, for as long as possible. We also need to ensure those who are frail are fully supported and have a personalised, coordinated response to reduce duplication and ensure the most appropriate services are accessed to support their care.

People are now living far longer, but extra years of life are not always spent in good health. They are more likely to live with frailty or dementia, so that on average older men now spend 2.4 years and women spend three years with 'substantial' care needs. Those in care homes have higher needs than other residents for essential medical cover because their needs are complex and changeable.

From 2020/21 the emerging Primary care networks will be expected to assess their local population by risk of unwarranted health outcomes and, working with local community services, make support available to people where it is needed the most. GPs are already using the Electronic Frailty Index to routinely identify people living with severe, moderate and mild frailty, but going forward will use a proactive population health approach focused on moderate frailty which will support earlier detection and therefore intervention for other health conditions or needs. The NHS Long term Plan states that people identified as having the greatest risks and needs will be offered targeted support for both their physical and mental health needs. Integrated primary and community teams will work with people to maintain their independence.

To support this, we have been working together as partners to deliver services differently ensuring we achieve maximum benefits for service users, carers and families. We have put the person at the centre of our plans and we have, and continue to, redesign our pathways to ensure that this is the case.

The Better Care Fund Plan 2017-19 for Darlington recognised that whilst there are some very effective services operating in relation to intermediate care, there was still potential for duplication and silo working in the way that services were managed and accessed and this partnership work will continue in 2019/20.

There is a positive history of partnership working across the CCG, Darlington Borough Council and CDDFT which has been demonstrated through the development and implementation of the Better Care Fund Plans (BCF) which has provided the opportunity for both commissioners and providers to improve the delivery of services, bringing benefits to the local population.

Our priorities for 2017-19 will continue into 2019/20. The agreed priorities remain:

- New Models of Care (now named the System Design and Delivery Group) and personalisation of services which is being taken forward through our strategic intentions with partners on care and support of the frail across the ICP area and also plans with emerging Primary Care Networks to tackle population health and strengthen our response times within the community with a stronger community services offer across health, primary and social care.
- Equipping people to be resilient and self-reliant through Primary Prevention/Early intervention, and Care Navigation the Wellbeing Facilitators service has been in place since May 2019 and seeks to support those who are moderately frail to self-care and manage exacerbations through a programme of support with non-clinical staff supported by Primary Care clinicians to link people to local services and support through non-medical services to improve health and wellbeing
- Intermediate Care and improvements to reablement and rehabilitation services has been a significant partnership priority and is outlined in more detail below in relation to integrated intermediate and the Frailty work being developed across the ICP. The reablement service has been reviewed in full and new roles to enhance functional assessments are in place

### B) HWB level

(i) Your approach to integrated services at HWB level (and neighbourhood where applicable), this may include (but is not limited to):

- Joint commissioning arrangements
- Alignment with primary care services (including PCNs (Primary Care Networks))

- Alignment of services and the approach to partnership with the VCS (Voluntary and Community Sector)

Remaining Word Limit: 280

^^ Link back to top

According to ONS, population growth has stopped in Darlington mainly due to a change in direction of net migrants but this has not been the case in Darlington.

The projected growth rate in Darlington is much slower than in the other Tees Valley local authority areas, apart from Redcar and Cleveland.

Darlington is ranked 97 of 326 areas in the Index of Multiple deprivation, placing it in the top 30% least deprived areas.

People are living longer and, whilst the increase in life expectancy is welcomed, this presents challenges for health and social care services as people living longer often have complex health conditions and require significant levels of support to remain independent.

Research shows that older age is associated with an increased incidence of multiple long term conditions and a growing number of functional and cognitive impairments. It is estimated that 58% of those aged 60 and over report having a Long Term Condition (LTC) with 25% of over 60s having two or more LTCs. For Darlington this would mean that by 2020 there will be approximately 5,500 over 65s with two or more LTCs.

Demand for health care services increases every year. In Darlington, there were 5567 emergency admissions to hospital for people aged over 65 in 2018/19, in 2017/18 this was 5155, a 8.0% increase.

The NHS Long Term Plan intends for Primary care networks of local GP practices and community teams to work together in a redesigned healthcare system so that people get the right care at the right time in the optimal care setting including for example, better support to people living in care homes to avoid emergency hospital admissions and also providing better social care and community support to slow the development of older people's frailty.

In Darlington there is one primary care networks and with the development of the integrated intermediate care service, there are huge opportunities to strengthen the crisis response and avoid hospital admissions through integrated primary, community, secondary and social care services.

Locally, the Better Care Fund plan has been jointly developed by partners, specifically:

- NHS Hartlepool and Stockton-on-Tees CCG
- Darlington Borough Council
- County Durham and Darlington NHS Foundation Trust
- Tees Esk and Wear Valleys NHS Foundation Trust

This joint planning enables partners to develop services that will contribute to reducing pressures on urgent care and prevent people needing emergency care in hospital or a permanent care home admission. It is expected that this will continue in 2019/20 and beyond as part of wider transformation

This document was classified as: OFFICIAL

### (ii) Your approach to integration with wider services (e.g. Housing), this should include:

- Your approach to using the DFG to support the housing needs of people with disabilities or care needs. This should include any arrangements for strategic planning for the use of adaptations and technologies to support independent living in line with the

^^ Link back to top

Remaining Word Limit: 473

Across Adult Social Care and Housing there was a review of future housing needs in 2019. This had the overall aim of ensuring a strategic link between both areas. This resulted in a new joint integration forum to ensure the strategy was delivered as well as ensuring, operationally all future housing requirements/needs were delivered in a consistent way. This will continue throughout 2019/20 with updates provided through the quarterly returns.

In addition to the new joint ASC and housing forum, the lifeline services continue to be provided by housing, and form part of the Adult Social Care reablement services are also accessed by private funders. These services continue to provide people with the support they need to live in their own homes.

An Assistive Technology Pilot is also in its early stages. This has been developed in conjunction with ASC and Lifeline Services and broadens the Assistive Technology offer to enable people to access support outside their home environments, so enabling them to maximise their independence and supporting family carers to continue in their caring role.

Darlington Council commission a number of Housing Related Support Services (HRS). There are many different vulnerable people who benefit from these services which include children and young people at risk of homeless, offenders and people with mental needs and learning disabilities. The Housing Options Team are able to access these services in order to signpost individuals to appropriate support.

Darlington Council are currently reviewing their Disabled Facilities Grant policy, using best practice from across other areas. This review is being undertaken in consultation with housing to ensure there is strategic alignment across social care and housing.

The overall strategy for DFG continues to be ensuring people with supported housing needs are supported to live independent in their own home and supporting the facilitation of discharge from hospital.

C) System level alignment, for example this	s may include (but is not limited to):		_
- How the BCF plan and other plans align to	the wider integration landscape, such as STF	P/ICS plans	
- A brief description of joint governance arr	angements for the BCF plan		^^ Link back to top
Remaining Word Limit:	97		•

The CCG, Local Authority and partners have a strong history of collaboration across Darlington in relation to supporting the delivery of health and care services that provide high quality and safe care to our local population. Strong governance arrangements are in place through the Darlington Integration Board and supporting operational delivery groups, ultimately reporting to the Health and Well Being Board.

The NHS Long Term Plan, published in 2019, sets out significant changes to the architecture of the NHS with a focus on collaboration and integration across NHS organisations, and their partners, providing opportunities to build upon our local Better Care Fund Plans.

The CCG 2019-20 Operational Plan describes how we will further strengthen our collaborative working through the shared vision of the newly formed South Integrated Care Partnership (ICP); collaboration with Hartlepool and Stockton; Darlington; North Durham; and, Durham Dales, Easington and Sedgefield CCGs; and the overarching regional North East and North Cumbria Integrated Care System.

The long term ambition for the people of the North East and North Cumbria (NENC) is 'to transform health outcomes and help them to live longer, healthier and wealthier lives.'

A separate document titled 'North East and North Cumbria, ICS Vision, Strategy and Framework for System Working' details the vision and longer term priorities as well as the mechanism for system working.

A draft NENC System Operating Plan (aggregated plan) has been developed to provide a supportive narrative to articulate how NENC ICS will deliver the requirements of the NHS Operational Planning and Contracting Guidance. It has been built up from Place level discussion, where there is active engagement with local government and community and voluntary sector partners, through to ICP level plans and active collaboration with NENC wide priority programmes including Health Education England. These 2019/20 planning submissions align with, and support delivery of, NENC's longer term priorities. There are four ICPs within the NENC ICS.

The South Integrated Care Partnership (ICP) has been set up to focus on "place" and ensure the sustainability of services for the local population that meet quality and clinical standards as well as workforce challenges, core performance and financial standards.

Our collaborative approach, across all providers and local authorities in the South ICP, will enable us to understand the shared opportunities and wider impact of our individual CCG plans, continuing to build on our history of working in partnership to drive improvements in the health and wellbeing of our local population.

Transformation across our ICP footprint will deliver a shift towards improving "population health" - moving from fragmentation to integration in care delivery, but also tackling the wider determinants of the health and wellbeing of our population.

The overarching objectives of the South ICP are:

To ensure our population has access to the best hospital care through the delivery of a programme of hospital services consolidation.

To improve population health outcomes through increased and more integrated out of hospital services based around communities.

To ensure optimal use of resources for patient pathways.

Assistive Technologies and Equipment	Using technology in care processes to supportive self-management, maintenance of independence and more	Telecare
	efficient and effective delivery of care. (eg. Telecare, Wellness services, Digital participation services).	Wellness Services
		Digital Participation Services
		Community Based Equipment
		Other
Care Act Implementation Related Duties	Funding planned towards the implementation of Care Act related duties.	Deprivation of Liberty Safeguards (DoLS)
		Other
Carers Services	Supporting people to sustain their role as carers and reduce the likelihood of crisis. Advice, advocacy,	Carer Advice and Support
	information, assessment, emotional and physical support, training, access to services to support wellbeing and	Respite Services
	improve independence. This also includes the implementation of the Care Act as a sub-type.	Other
Community Based Schemes	Schemes that are based in the community and constitute a range of cross sector practitioners delivering	
	collaborative services in the community typically at a neighbourhood level (eg: Integrated Neighbourhood	
	Teams)	
	Teams)	
DFG Related Schemes	The DFG is a means-tested capital grant to help meet the costs of adapting a property; supporting people to stay	Adaptations
	independent in their own homes.	Other

This document was classified as: OFFICIAL

Enablers for Integration	Schemes that build and develop the enabling foundations of health and social care integration encompassing a wide range of potential areas including technology, workforce, market development (Voluntary Sector Business Development: Funding the business development and preparedness of local voluntary sector into provider Alliances/ Collaboratives) and programme management related schemes. Joint commissioning infrastructure includes any personnel or teams that enable joint commissioning. Schemes could be focused on Data Integration, System IT Interoperability, Programme management, Research and evaluation, Supporting the Care Market, Workforce development, Community asset mapping, New governance arrangements, Voluntary Sector Development, Employment services, Joint commissioning infrastructure amongst others.	
High Impact Change Model for Managing Transfer of Care	The eight changes or approaches identified as having a high impact on supporting timely and effective discharge through joint working across the social and health system. The Hospital to Home Transfer Protocol or the 'Red Bag' scheme, while not in the HICM as such, is included in this section.	Chg 1. Early Discharge Planning Chg 2. Systems to Monitor Patient Flow Chg 3. Multi-Disciplinary/Multi-Agency Discharge Teams Chg 4. Home First / Discharge to Access Chg 5. Seven-Day Services Chg 6. Trusted Assessors Chg 7. Focus on Choice Chg 8. Enhancing Health in Care Homes Other - 'Red Bag' scheme Other approaches
Home Care or Domiciliary Care	A range of services that aim to help people live in their own homes through the provision of domiciliary care including personal care, domestic tasks, shopping, home maintenance and social activities. Home care can link with other services in the community, such as supported housing, community health services and voluntary sector services.	
Housing Related Schemes	This covers expenditure on housing and housing-related services other than adaptations; eg: supported housing units.	

Integrated Care Planning and Navigation	Care navigation services help people find their way to appropriate services and support and consequently  Care Coordination
	support self-management. Also, the assistance offered to people in navigating through the complex health and  Single Point of Access
	social care systems (across primary care, community and voluntary services and social care) to overcome barriers   Care Planning, Assessment and Review
	in accessing the most appropriate care and support. Multi-agency teams typically provide these services which Other
	can be online or face to face care navigators for frail elderly, or dementia navigators etc. This includes approaches
	like Single Point of Access (SPoA) and linking people to community assets.
	Integrated care planning constitutes a co-ordinated, person centred and proactive case management approach
	to conduct joint assessments of care needs and develop integrated care plans typically carried out by
	professionals as part of a multi-disciplinary, multi-agency teams.
	Note: For Multi-Disciplinary Discharge Teams and the HICM for managing discharges, please select HICM as
	scheme type and the relevant sub-type. Where the planned unit of care delivery and funding is in the form of
	Integrated care packages and needs to be expressed in such a manner, please select the appropriate sub-type
	alongside.
Intermediate Care Services	Short-term intervention to preserve the independence of people who might otherwise face unnecessarily  Bed Based - Step Up/Down
	prolonged hospital stays or avoidable admission to hospital or residential care. The care is person-centred and Rapid / Crisis Response
	often delivered by a combination of professional groups. Four service models of intermediate care are: bed-
	based intermediate care, crisis or rapid response (including falls), home-based intermediate care, and reablement Other
	or rehabilitation. Home-based intermediate care is covered in Scheme-A and the other three models are
	available on the sub-types.

Personalised Budgeting and Commissioning	Various person centred approaches to commissioning and budgeting.	Personal Health Budgets
		Integrated Personalised Commissioning
		Direct Payments
		Other
Personalised Care at Home	Schemes specifically designed to ensure that a person can continue to live at home, through the provision of	
	health related support at home often complemented with support for home care needs or mental health needs.	
	This could include promoting self-management/expert patient, establishment of 'home ward' for intensive period	
	or to deliver support over the longer term to maintain independence or offer end of life care for people.	
	Intermediate care services provide shorter term support and care interventions as opposed to the ongoing	
	support provided in this scheme type.	
Prevention / Early Intervention		Social Prescribing
		Risk Stratification
		Choice Policy
	Services or schemes where the population or identified high-risk groups are empowered and activated to live	Other
	well in the holistic sense thereby helping prevent people from entering the care system in the first place. These	
	are essentially upstream prevention initiatives to promote independence and well being.	
Residential Placements	Residential placements provide accommodation for people with learning or physical disabilities, mental health	Supported Living
	difficulties or with sight or hearing loss, who need more intensive or specialised support than can be provided at	Learning Disability
	home.	Extra Care
		Care Home
		Nursing Home
		Other
Other	Where the scheme is not adequately represented by the above scheme types, please outline the objectives and	
	services planned for the scheme in a short description in the comments column.

### 7. High Impact Change Model

Selected Health and Wellbeing Board:

Dar	lington
Dui	illigioni

Explain your priorities for embedding elements of the High Impact Change Model for Managing Transfers of Care locally, including:
- Current performance issues to be addressed

- The changes that you are looking to embed further - including any changes in the context of commitments to reablement and Enhanced Health in Care Homes in the NHS Long-Term Plan

- Anticipated improvements from this work

Performance in relation to DToC for Darlington has improved significantly and national reductions set in 18/19 were achieved.

Comparing 2017/18 to 2018/19 delayed days reduced from 1901 to 1262 (33.6% reduction) and reductions have continued in 19/20. Continued work in relation to the following should further support the High Impact Change Model, reductions in DToC and the NHSE Long Length of Stay Targets: Integrated Intermediate Care review, continued work with Care Homes and ongoing work on discharge pathways including Trusted Assessor arrangements.

		Please enter current position of maturity	Please enter the maturity level planned to be reached by March 2020	If the planned maturity level for 2019/20 is below established, please state reasons behind that?

specific acute	plans via this template is not	workforce planning, BCF/Efficiency scheme adjustments and the profile was adjusted
non-elective	required as the BCF NEA metric	for seasonal fluctuations. For Darlington CCG the baseline growth for 2019/20 was
spells per	plans are based on the NEA CCG	5.8%, however net growth for NEA, which was submitted in the operating plan, was
100,000	Operating plans submitted via	3.4%. A number of the 2019/20 BCF funded schemes will support the reduction of
population	SDCS.	NEA.

Please set out the overall plan in the HWB area for reducing Non-Elective Admissions, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.

Plans are yet to be finalised and signed-off so are subject to change; for the latest version of the NEA CCG operating plans at your HWB footprint please contact your local Better Care Manager (BCM) in the first instance or write in to the support inbox:

ENGLAND.bettercaresupport@nhs.net

### 8.2 Delayed Transfers of Care

	19/20 Plan	Overview Narrative	
Delayed Transfers of Care per day (daily delays) from hospital (aged 18+)		Performance in this area continues to meet expectations against target. Resources and actions have been identified for use of the winter pressures funding ensuring this performance continues to support the level of performance achieved during the seasonal pressures. This includes provision of additional reablement capacity and rapid response.	reducing Delayed Transfers of Care to meet expectations set for your area. This should include any assessment of

Please note that the plan figure for Greater Manchester has been combined, for HWBs in Greater Manchester please comment on individuals HWBs rather than Greater Manchester as a whole. Please note that due to the merger of Bournemouth, Christchurch and Poole to a new Local Authority will mean that planning information from 2018/19 will not reflect the present geographies.

#### 8.3 Residential Admissions

		18/19 Plan	19/20 Plan	Comments
Long-term support needs of older people (age 65 and over) met by admission to residential and nursing care homes, per 100,000	Annual Rate	769		The reduction in rates of admision to residential care is supported by ongoing investment in maximisng
	Numerator	166		independence to enable people to remain in the community. This is enabled by a range of provisions
	Denominator	21,588	21,791	including; increased reablement capacity; a range of assistive technology options and support into extra care housing.

Please set out the overall plan in the HWB area for reducing rates of admission to residential and nursing homes for people over the age of 65, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.

Long-term support needs of older people (age 65 and over) met by admission to residential and nursing care homes, per 100,000 population (aged 65+) population projections are based on a calendar year using the 2016 based Sub-National Population Projections for Local Authorities in England;

Please note that due to the merger of the Bournemouth, Christchurch and Poole Local Authorities, this will mean that planning information from 2018/19 will not reflect the present geographies.

### 8.4 Reablement

		18/19 Plan	19/20 Plan	Comments
Proportion of older people (65 and	Annual (%)	84.0%		The transformation of the reablement pathway at Darlington Borough Council will apply clear criteria for
over) who were still at home 91 days after discharge from hospital into reablement / rehabilitation	Numerator	210		accessing reablement, which will have a positive impact on this indicator. The use of winter pressures funding will
services	Denominator	250		allow for an increase in reablement capacity during the seasonal pressures, thus ensuring there is no negative

Please set out the overall plan in the HWB area for increasing the proportion of older people who are still at home 91 days after discharge from hospital into reablement/rehabilitation, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.

Please note that due to the merger of the Bournemouth, Christchurch and Poole Local Authorities, this will mean that planning information from 2018/19 will not reflect the present geographies.

## 9. Confirmation of Planning Requirements

Selected Health and Wellbeing Board:

Darlington

Theme	Code	Planning Requirement	Key considerations for meeting the planning requirement These are the Key Lines of Enquiry (KLOEs) underpinning the Planning Requirements (PR)	Please confirm whether your BCF plan meets the Planning Requirement?	requirement is not met, please note the actions in	Where the Planning requirement is not met, please note the anticipated timeframe for meeting it
	PR1	A jointly developed and agreed plan that all parties sign up to	Has a plan; jointly developed and agreed between CCG(s) and LA; been submitted?  Has the HWB approved the plan/delegated approval pending its next meeting?  Have local partners, including providers, VCS representatives and local authority service leads (including housing and DFG leads) been involved in the development of the plan?  Do the governance arrangements described support collaboration and integrated care?  Where the strategic narrative section of the plan has been agreed across more than one HWB, have individual income, expenditure, metric and HICM sections of the plan been submitted for each HWB concerned?	Yes		
NC1: Jointly agreed plan	PR2	A clear narrative for the integration of health and social care	Is there a narrative plan for the HWB that describes the approach to delivering integrated health and social care that covers:  - Person centred care, including approaches to delivering joint assessments, promoting choice, independence and personalised care?  - A clear approach at HWB level for integrating services that supports the overall approach to integrated care and confirmation that the approach supports delivery at the interface between health and social care?  - A description of how the local BCF plan and other integration plans e.g. STP/ICSs align?  - Is there a description of how the plan will contribute to reducing health inequalities (as per section 4 of the Health and Social Care Act) and to reduce inequalities for people with protected characteristics under the Equality Act 2010? This should include confirmation that equality impacts of the local BCF plan have been considered, a description of local priorities related to health inequality and equality that the BCF plan will contribute to addressing.  Has the plan summarised any changes from the previous planning period? And noted (where appropriate) any lessons learnt?	Yes		
	PR3	A strategic, joined up plan for DFG spending	Is there confirmation that use of DFG has been agreed with housing authorities?  Does the narrative set out a strategic approach to using housing support, including use of DFG funding that supports independence at home.  In two tier areas, has:  - Agreement been reached on the amount of DFG funding to be passed to district councils to cover statutory Disabled Facilities Grants? or  - The funding been passed in its entirety to district councils?	Yes		
NC2: Social Care Maintenance	PR4	A demonstration of how the area will maintain the level of spending on social care services from the CCG minimum contribution to the fund in line with the uplift in the overall contribution	Does the total spend from the CCG minimum contribution on social care match or exceed the minimum required contribution (autovalidated on the planning template)?	Yes		
NC3: NHS commissioned Out of Hospital Services	PR5	Has the area committed to spend at equal to or above the minimum allocation for NHS commissioned out of hospital services from the CCG minimum BCF contribution?	Does the total spend from the CCG minimum contribution on non-acute, NHS commissioned care exceed the minimum ringfence (autovalidated on the planning template)?	Yes		
NC4: Implementation of the High Impact Change Model for Managing Transfers of Care		Is there a plan for implementing the High Impact Change Model for managing transfers of care?	Does the BCF plan demonstrate a continued plan in place for implementing the High Impact Change Model for Managing Transfers of Care?  Has the area confirmed the current level of implementation and the planned level at March 2020 for all eight changes? Is there an accompanying overall narrative setting out the priorities and approach for ongoing implementation of the HICM?  Does the level of ambition set out for implementing the HICM changes correspond to performance challenges in the system?  If the current level of implementation is below established for any of the HICM changes, has the plan included a clear explanation and set of actions towards establishing the change as soon as possible in 2019-20?	Yes		

Agreed expenditure plan for all elements of the BCF	PR7	pool that are earmarked for a purpose	Have the planned schemes been assigned to the metrics they are aiming to make an impact on?  Expenditure plans for each element of the BCF pool match the funding inputs? (auto-validated)  Is there confirmation that the use of grant funding is in line with the relevant grant conditions? (tick-box)  Is there an agreed plan for use of the Winter Pressures grant that sets out how the money will be used to address expected demand pressures on the Health system over Winter?  Has funding for the following from the CCG contribution been identified for the area?  - Implementation of Care Act duties?  - Funding dedicated to carer-specific support?  - Reablement?	Yes		
	PR8	Indication of outputs for specified scheme types	Has the area set out the outputs corresponding to the planned scheme types (Note that this is only for where any of the specified set of scheme types requiring outputs are planned)? (auto-validated)	Yes		
Metrics	PR9	Does the plan set stretching metrics and are there clear and ambitious plans for delivering these?	Is there a clear narrative for each metric describing the approach locally to meeting the ambition set for that metric?  Is there a proportionate range of scheme types and spend included in the expenditure section of the plan to support delivery of the metric ambitions for each of the metrics?  Do the narrative plans for each metric set out clear and ambitious approaches to delivering improvements?  Have stretching metrics been agreed locally for:  - Metric 2: Long term admission to residential and nursing care homes  - Metric 3: Proportion of older people (65 and over) who were still at home 91 days after discharge from hospital into reablement	Yes
