

PURPOSE OF THE REPORT

To update the committee on progress of County Durham & Darlington NHS Foundation Trust with regards to the agreed priorities for improvements for the 2019/2020 period. This report provides and update from April 2019 to September 2019.

WHAT ARE QUALITY ACCOUNTS?

Quality Accounts are annual reports to the public from the providers of NHS healthcare about the quality of the services they deliver. The primary purpose is to encourage leaders of healthcare organisations to assess the quality of care they deliver. The Quality Accounts for County Durham & Darlington NHS Foundation Trusts includes indicators set by the Department of Health and those we have identified as local priorities.

PRIORITIES FOR 2019/2020

The table below sets out the priorities and position (where data is available). The priorities were agreed through consultation with staff, governors, local improvement networks, commissioners, health scrutiny committees and other key stakeholders.

Where progress can be reported at this point this has been colour coded as follows;

RED – not on track
 AMBER – improvement seen but not to level expected
 GREEN – on track

Priority	Goal	Position/Improvement
SAFETY		
Patient Falls₁ (Continuation)	<p>Targeted work continued to reduce falls across the organisation and the introduction of the dedicated falls team</p> <p>To ensure continuation and consolidation of effective processes to reduce the incidence of injury.</p> <p>To continue sensory training to enhance staff perception of risk of falls.</p> <p>To continue a follow up service for patients admitted with fragility fractures.</p>	<ul style="list-style-type: none"> - To continue the introduction of the Trust Falls Strategy, covering a 3 year period. - To agree a plan of year 2 actions. - To monitor implementation of year 2 actions against the Strategy. <p>Acute falls = 5.4 per 1000 bed days Community falls = 5.5 per 1000 bed days Multiagency action plan is underway and outcomes will be included in the Accounts Quality Improvement work continues and red zimmer frames have been introduced into key areas Lying/standing blood pressure has been built into the electronic observations tool to improve compliance</p>

Care of patients with dementia₁ (Continuation)	Continued development and roll out of a dementia pathway and monitoring of care for patients with dementia.	<ul style="list-style-type: none"> - The dementia screening tool has been incorporated into the electronic nerve centre, and removes the need for paper base assessment. - The next step is to migrate the data from nerve centre to formulate the national reporting criteria. This generates the statistics for measuring compliance with undertaking the dementia assessment. This will be migrated the end of the year. - Action plan developed from the NAD the intention is to utilise the finding from the 2018 NAD to see if there have been any changes in practice/improvements. - Carers survey has been completed. The recommendations are to be monitored alongside the national dementia audit recommendations. The action plans have been merged and form the Strategy Action Plan 2019/2020. This will be monitored. - Participate in a 5 year research project of dementia services within the Durham area to continue during 2019/2020. Participation to continue. - Continue the study in the development of a good practice audit tool for assessing patient care and services for those living with dementia. Participation to continue.
Healthcare Associated Infection MRSA bacteraemia_{1,2} Clostridium difficile_{1,2} (Continuation and mandatory)	National and Board priority. Further improvement on current performance.	<ul style="list-style-type: none"> - Achieve reduction in MRSA bacteraemia against a threshold of zero. One case reported since April 2019 - No more than 45 (see new reporting mechanism) cases of hospital acquired Clostridium difficile. 23 cases reported since April 2019 - Both of these will be reported onto the Mandatory Enhanced Surveillance System and monitored via Infection Control Committee.
Pressure ulcers₁ (Continuation)	To have zero tolerance for grade 3 and 4 pressure ulcers	<ul style="list-style-type: none"> - Implement new national reporting metrics - Review of all identified grade 3 or 4 pressure ulcers - Continued education programme Four identified between April and September where lapses in care were identified

Discharge summaries₁ (Continuation)	To improve timeliness of discharge summary completion.	<ul style="list-style-type: none"> - Data collected via electronic discharge letter system and monitored via monthly performance reviews and Board reporting. - Care Groups undertake consultant level audits - Train 2019 intake of new junior doctors Compliance has remained at around 94% during the period. Work programme continues
Rate of patient safety incidents resulting in severe injury or death_{1,2} (Continuation and mandatory)	To increase reporting to 75 th percentile against reference group.	<ul style="list-style-type: none"> - Cascade lessons learned from serious incidents. - NRLS data. Enhance incident reporting to 75th percentile against reference group. A 38% increase of incidents reported Oct to Mar 2019 compared to the same period 2018, however still remain in the middle 50th percentile of reporters. <ul style="list-style-type: none"> - Continue to embed Trustwide work to embed and improve reporting of near miss and no harm incidents.
Improve management of patients identified with sepsis₃ (Continuation)	To maintain improvement in relation to management of sepsis	<ul style="list-style-type: none"> - Continue to implement sepsis care bundle across the Trust. - Continue to implement and embed post one hour pathway. - Continue to audit compliance and programme. - Hold professional study days. On track
EXPERIENCE		
Nutrition and Hydration in Hospital₁ (Continuation)	To promote optimal nutrition and hydration for all patients.	<ul style="list-style-type: none"> - Continue to work closely together on hospital menu development and nutritional analysis. - Continue to work closely with Speech and Language Therapy colleagues within the Trust towards achieving International Dysphagia Diet Standardisation Initiative (IDDSI) ward menus and nutritional products. - In terms of hydration we will consider how we maintain and monitor sufficient hydration status of patients requiring both artificial (intravenous or enteral) and non-artificial hydration support. - We will explore how CDDFT might require alternative ways of measuring oral fluid intake at ward level. In progress
End of life and palliative care₁	We now have an effective strategy and measures for palliative care. The	<ul style="list-style-type: none"> - We will work with CCG and NEAS to agree a comprehensive approach to personalised care planning.

(Continuation)	<p>measures are derived from the strategy and will support each patient to be able to say:</p> <p><i>"I can make the last stage of my life as good as possible because everyone works together confidently, honestly and consistently to help me and the people who are important to me, including my carer(s)"</i></p>	<ul style="list-style-type: none"> - We will work with regional partners to develop electronic sharing of key palliative care information (ePaCCS). - We will support and monitor new out of hours advice service. - We will continue to deliver palliative care mandatory training for all staff. - We will implement actions from postal questionnaire of bereaved relatives (VOICES). - We will implement actions and learning from Care of Dying Audit. - In progress
<p>Responsiveness to patients personal needs^{1,2}</p> <p>(Continuation and mandatory)</p>	<p>To measure an element of patient views that indicates the experience they have had.</p>	<ul style="list-style-type: none"> - Continue to ask the 5 key questions and aim for improvement in positive responses in comparison to last years results. - Quarterly Reports to Integrated Quality Assurance Committee and any emerging themes monitored for improvement through the Patient Experience Forum. - The Trust will continue to participate in the national inpatient survey. <p>Annual response from National Inpatient Survey – local survey continues quarterly (quarter 1 result shows standard on track to deliver)</p>
<p>Percentage of staff who would recommend the trust to family or friends needing care^{1,2}</p> <p>(Continuation and mandatory)</p> <p>Percentage of staff experience harassment, bullying or abuse from staff in the last 12 months²</p> <p>(Mandatory measure)</p> <p>Percentage of staff believing that the Trust</p>	<p>To show improvement year on year bringing CDDFT in line with the national average.</p>	<ul style="list-style-type: none"> - To bring result to within national average. - Results will be measured by the annual staff survey. Results will be reviewed by sub committees of the Trust Board and shared with staff and leaders and themes considered as part of the staff engagement work. - In addition we will continue to report results for harassment & bullying and Race Equality Standard. <p>Annual response from Staff Survey</p>

<p>provides equal opportunities for career progression or promotion₂</p> <p>(Mandatory measure)</p>		
<p>Friends and Family Test₁</p> <p>(Continuation)</p>	<p>To increase Friends and family response rates</p>	<ul style="list-style-type: none"> - During 2019/2020 we will increase or maintain Friends and Family response rates. All areas participating will receive monthly feedback and a quarterly report of progress and will be monitored by the Trust Board. <p>Improvement seen in response rates April to July</p>
EFFECTIVENESS		
<p>Hospital Standardised Mortality Ratio (HSMR)₁</p> <p>Standardised Hospital Mortality Index (SHMI)_{1,2}</p> <p>(Continuation and mandatory)</p>	<p>To closely monitor nationally introduced Standardised Hospital Mortality Index (SHMI) and take corrective action as necessary.</p> <p>To embed "Learning From Deaths" policy</p>	<ul style="list-style-type: none"> - To monitor for improvement via Mortality Reduction Committee. - To maintain HSMR and SHMI within expected levels. - Results will be captured using nationally recognised methods and reported via Mortality Reduction Committee. We will continue to benchmark both locally and nationally with organisations of a similar size and type. Updates will be submitted to Trust Board via the performance scorecard. - Trust mortality review process, allocation of priority reviews to central review team for completion will continue to ensure any learning, positive and negative, is embedded in patient care. - Embed "Learning from Deaths" policy. - In line with national changes the post of Lead Medical Examiner has been advertised. The successful post holder will lead the introduction of the Medical Examiner System, during the coming months. <p>Mortality monitoring indicators within expected range. Mortality reviews continue</p>
<p>Reduction in 28 day readmissions to hospital_{1,2}</p> <p>(Continuation and mandatory)</p>	<p>To implement effective and safe care closer to home, improving patient experience post discharge.</p>	<ul style="list-style-type: none"> - Further development of multi-disciplinary Teams Around Patients (TAPS). - Safe discharge is a key theme of the Transforming Emergency Care programme.

		<ul style="list-style-type: none"> - Monitoring through monthly performance reviews and Board reporting. - Agreement with Stakeholders to set this threshold at a higher level and aim for year on year improvement on this. Set at 12% for 2019/2020 Current performance 12.3%. work continues to improve on this
To reduce length of time to assess and treat patients in Accident and Emergency department^{1,2} Continuation and mandatory)	To improve patient experience by providing safe and timely access to emergency care.	<ul style="list-style-type: none"> - Daily monitoring of performance indicators against NHSI and national 95% standards. - Monitoring through monthly performance reviews and Board reporting. - Transforming Emergency Care programme. - Review of escalation procedures. 4 hour wait indicator remains below 95%.
Patient reported outcome measures^{1,2} (Continuation and mandatory)	To improve response rate.	<ul style="list-style-type: none"> - To aim to be within national average for improved health gain. - NHS England have removed groin hernia and varicose vein from mandatory data collection, hip and knee will continue. <p>Annual response</p>
Maternity standards (new indicator following stakeholder event)	To monitor compliance with key indicators.	<ul style="list-style-type: none"> - Continue to monitor for maintenance and improvement in relation to breastfeeding, smoking in pregnancy and 12 week booking. - Monitor actions taken from gap analysis regarding "Saving Babies Lives" report. <p>12 week booking 91.1% Breastfeeding 57.7% Smoking in pregnancy 15.2%</p>
Paediatric care (new indicator following stakeholder event)	Embed paediatric pathway work stream.	<ul style="list-style-type: none"> - Continue development of more direct and personal relationships with individuals within Primary and Secondary care by building on the work already undertaken. <p>Paediatric dedicated paediatric unit now opened adjacent to Emergency Department</p>
Excellence Reporting (new indicator following stakeholder event)	To ensure that CDDFT continues to embed learning from excellence into standard culture and	<ul style="list-style-type: none"> - A monthly report to the Executive and Clinical Leadership Committee (ECL) incorporating total Excellence Reports for the preceding month, a Care Group breakdown, highlights of departments

	practice through Excellence Reporting.	<p>with the most excellence reports and common themes.</p> <ul style="list-style-type: none"> - A quarterly report to the Integrated Quality Assurance Committee (IQAC) summarising the ECL report and encompassing summary from learning from excellence group. <p>Embedded within Care Groups</p>
--	--	---

1 - continuation from previous year

2 - mandatory measure

3 - new indicator following stakeholder events

During 2019/2020 we will incorporate a section to include changes to services and their impact, with a particular emphasis on access to clinical services and whether their effectiveness has been diminished through service change.

Two Never Events have been reported since April 2019. Action plans are developed and monitoring is in place for completion.

Post setting this year's Accounts the Trust received correspondence from the Chief Nursing Officer to ask that the newly formed Learning Disability standards were included in the Quality Accounts. It was noted that Trusts are expected to publish their performance against these standards in their annual accounts: to demonstrate to the population they serve how they measure quality of services and whether quality is improving. We will ensure that this is included and progress monitored

Clostridium *difficile* (CDI) objectives for 2019/2020

Acute provider objectives for 2019/20 will be set using these two categories:

- **Hospital onset healthcare associated:** cases that are detected in the hospital three or more days after admission
- **Community onset healthcare associated:** cases that occur in the community (or within two days of admission) when the patient has been an inpatient in the trust reporting the case in the previous four weeks.

CDI Objectives for CDDFT have been set at **45** cases or rate of **16.4** per 1000 bed days

Recommendation

The Board receives the report as evidence of ongoing commitment to improve quality outcomes for patients under our care.

Joanne Todd

Associate Director of Nursing (Patient Safety & Governance)

September 2019
